Steady

The flood risk is VERY LOW for the next five days, despite some spells of heavy rain today (Friday) and through the weekend.

Specific Areas of Concern Map - Friday 17 and Saturday 18 March.

RISK AREA A

Impact **MINOR**

Likelihood **LOW**

Source River

Likely duration 2 Days

RISK AREA B

Impact **MINOR**

Likelihood **LOW**

Source River Surface

Likely duration 2 Days

Heavy rain for a time Friday evening into Saturday morning.

Assessment of flood risk

Rivers

The river flood risk is VERY LOW for the next five days. Rain on Friday and Saturday is expected to be heavy and persistent over upland parts of the north and west of England and Wales. Localised minor river impacts are possible in Risk Areas A and B and isolated minor impacts are possible over the Pennine catchments. On Sunday, further rain across high ground in the north and west of England and Wales, falling on already wet catchments, could also lead to some minor flooding impacts, though the response in the rivers will be dependent on how much rain has fallen on Saturday.

Surface water

The surface water flood risk is VERY LOW for the next five days, despite periods of heavy rain over the north and west of England and Wales on Friday and through the weekend.

Coastal/Tidal

The coastal/tidal flood risk is VERY LOW for the next five days.

Groundwater

The groundwater flood risk is VERY LOW for the next five days.

Flood Guidance Statement

Flood risk matrix

LIKELIHOOD	HIGH				
	MEDIUM				
	LOW				
	VERY LOW				
		MINIMAL	MINOR	SIGNIFICANT	SEVERE
IMPACT					
		VERY LOW	LOW	MEDIUM	HIGH
OVERALL FLOOD RISK					

Summary of potential impacts

MINIMAL

Isolated and minor flooding of low-lying land and roads
Isolated spray/wave on coastal promenades
Little or no disruption to travel, but wet road surfaces

MINOR

Localised flooding of land and roads
Flooding affecting individual properties
Disruption to travel and key sites in flood plans

SIGNIFICANT

Flooding affecting parts of communities
Possible danger to life and damage to buildings/structures
Disruption to travel and key sites in flood plans

SEVERE

Danger to life, severe disruption to travel
Widespread flooding affecting whole communities
Widespread disruption or loss of infrastructure
Large scale evacuation of properties possible
