RISK AREA **B**

Impact **MINOR**

Likelihood **LOW**

Source Surface

Likely duration 1 Day

Isolated impacts possible in urban areas.

The map displays the United Kingdom with a specific area of concern highlighted in green, labeled 'B'. This area is located in central England, encompassing regions around Manchester and Birmingham. The map includes geographical labels such as 'Irish Sea', 'Atlantic Sea', and 'English Channel'. Major cities like Leeds, Manchester, Birmingham, and London are indicated. The map is credited to Esri, DeLorme, GEBCO, NOAA NGDC, and other contributors, and is powered by Esri.

Assessment of flood risk

Surface water

The surface water flood risk is VERY LOW for the next five days. Isolated heavy showers may affect parts of the south of England and Wales later today (Thursday) - refer to specific areas of concern map 1. Isolated minor impacts are possible.

Further rain is expected on Friday with a risk of scattered heavy showers to follow. Minor surface water impacts are possible through parts of central and northern England and Wales during the afternoon and evening - refer to specific area of concern map 2.

Rivers

The river flood risk is VERY LOW for the next five days. Small rivers may respond to heavy showers today (Thursday) and Friday, especially in more urbanised areas, but any impacts are expected to be minimal.

Coastal/Tidal

The coastal/tidal flood risk is VERY LOW for the next five days.

Groundwater

The groundwater flood risk is VERY LOW for the next five days.

LIKELIHOOD	HIGH				
	MEDIUM				
	LOW				
	VERY LOW				
		MINIMAL	MINOR	SIGNIFICANT	SEVERE
IMPACT					
		VERY LOW	LOW	MEDIUM	HIGH
OVERALL FLOOD RISK					

Summary of potential impacts

MINIMAL

Isolated and minor flooding of low-lying land and roads
Isolated spray/wave on coastal promenades
Little or no disruption to travel, but wet road surfaces

MINOR

Localised flooding of land and roads
Flooding affecting individual properties
Disruption to travel and key sites in flood plans

SIGNIFICANT

Flooding affecting parts of communities
Possible danger to life and damage to buildings/structures
Disruption to travel and key sites in flood plans

SEVERE

Danger to life, severe disruption to travel
Widespread flooding affecting whole communities
Widespread disruption or loss of infrastructure
Large scale evacuation of properties possible
