Steady

Across parts of south, east and central England the flood risk is LOW for Tuesday into Wednesday where significant impacts are possible but not expected.

Specific Areas of Concern Map 1: Tuesday 27 and Wednesday 28 June.

RISK AREA A

Impact **SIGNIFICANT**

Likelihood **VERY LOW**

Source River Surface

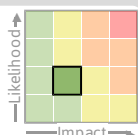

Likely duration 2 Days

Torrential downpours - Urban areas most at risk

RISK AREA B

Impact **MINOR**

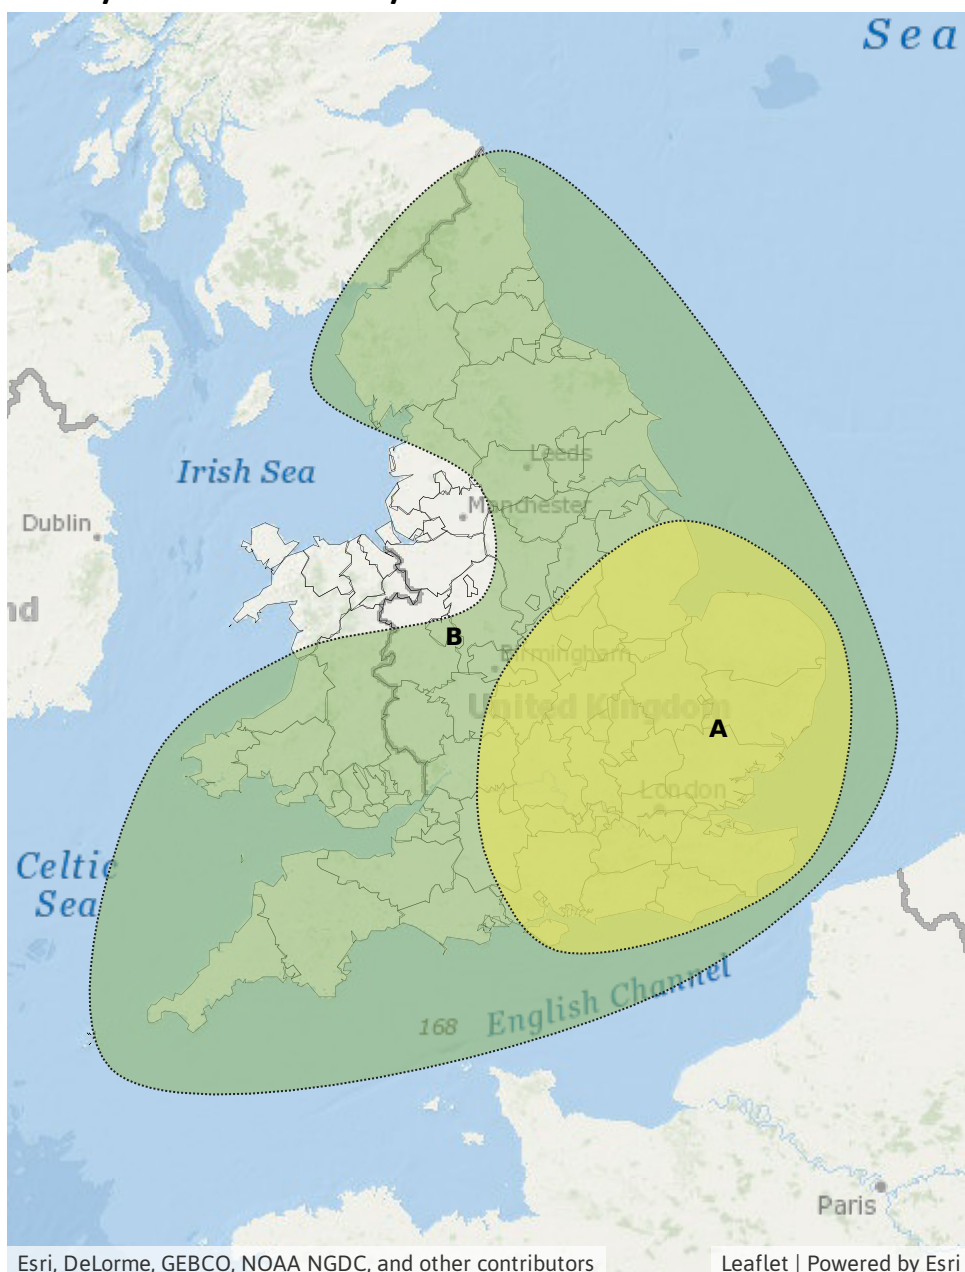

Likelihood **LOW**

Source River Surface

Likely duration 2 Days

Urban areas most at risk

Esri, DeLorme, GEBCO, NOAA NGDC, and other contributors

Assessment of flood risk

Surface water

The surface water flood risk is LOW for Tuesday and into Wednesday morning.

Significant surface water flooding impacts are possible, but not expected, on Tuesday afternoon and into Wednesday morning from potentially heavy and thundery rain. Refer to Specific Area of Concern Map 1.

Minor impacts are also possible later on Tuesday and into Wednesday (see Areas of Concern Map 1) more widely across England and Wales.

On Thursday and Friday further minor impacts are possible, but not expected, across parts of England and Wales and the surface water flood risk becomes VERY LOW.

Rivers

The river flood risk is LOW for Tuesday and into Wednesday morning.

Isolated significant river flooding impacts are possible, but not expected, on Tuesday afternoon and into Wednesday morning from potentially heavy and thundery rain, particularly in urban and fast responding catchments. Refer to Specific Area of Concern Map 1.

Minor river flooding impacts are also possible later on Tuesday and into Wednesday (see Areas of Concern Map 1) more widely across England and Wales.

On Thursday and Friday further minor impacts are possible, but not expected, across parts of England and Wales and the river flood risk becomes VERY LOW.

Coastal/Tidal

The coastal/tidal flood risk is VERY LOW for the next five days.

Groundwater

The groundwater flood risk is VERY LOW for the next five days.

Flood Guidance Statement

Flood risk matrix

LIKELIHOOD	HIGH				
	MEDIUM				
	LOW				
	VERY LOW				
		MINIMAL	MINOR	SIGNIFICANT	SEVERE
IMPACT					
		VERY LOW	LOW	MEDIUM	HIGH
OVERALL FLOOD RISK					

Summary of potential impacts

MINIMAL

Isolated and minor flooding of low-lying land and roads
Isolated spray/wave on coastal promenades
Little or no disruption to travel, but wet road surfaces

MINOR

Localised flooding of land and roads
Flooding affecting individual properties
Disruption to travel and key sites in flood plans

SIGNIFICANT

Flooding affecting parts of communities
Possible danger to life and damage to buildings/structures
Disruption to travel and key sites in flood plans

SEVERE

Danger to life, severe disruption to travel
Widespread flooding affecting whole communities
Widespread disruption or loss of infrastructure
Large scale evacuation of properties possible

Next statement due **10:30hrs Wednesday 28 June 2017 (all times are local)**
