Local minor surface water and river flooding impacts are possible but not expected across parts of the south of England and Wales on Tuesday, and more widely across England and Wales on Wednesday.

Assessment of flood risk

Surface water

The surface water flood risk is VERY LOW for the next five days.

Local minor surface water flooding impacts are possible, but not expected, across south Wales and the south of England later Tuesday, and more widely across parts of England and Wales on Wednesday. This is due to scattered thunderstorms which may develop across these areas, with urban areas most risk.

Rivers

The river flood risk is VERY LOW for the next five days.

Local minor river flooding impacts are possible, but not expected, across south Wales and the south of England later Tuesday, and more widely across parts of England and Wales on Wednesday. This is due to scattered thunderstorms which may develop across these areas, with smaller catchments and urban watercourses most risk.

Coastal/Tidal

The coastal/tidal flood risk is VERY LOW for the next five days.

Groundwater

The groundwater flood risk is VERY LOW for the next five days.

Flood Guidance Statement

10:30hrs Sunday 16 July 2017

Flood risk matrix

LIKELIHOOD	HIGH				
	MEDIUM				
	LOW				
	VERY LOW				
		MINIMAL	MINOR	SIGNIFICANT	SEVERE
IMPACT					
		VERY LOW	LOW	MEDIUM	HIGH
OVERALL FLOOD RISK					

Summary of potential impacts

MINIMAL

Isolated and minor flooding of low-lying land and roads
Isolated spray/wave on coastal promenades
Little or no disruption to travel, but wet road surfaces

MINOR

Localised flooding of land and roads
Flooding affecting individual properties
Disruption to travel and key sites in flood plans

SIGNIFICANT

Flooding affecting parts of communities
Possible danger to life and damage to buildings/structures
Disruption to travel and key sites in flood plans

SEVERE

Danger to life, severe disruption to travel
Widespread flooding affecting whole communities
Widespread disruption or loss of infrastructure
Large scale evacuation of properties possible
