Steady

Minor surface water and river flooding impacts are possible but not expected across parts of northern England today, and possible in parts of the south and east of England over the weekend. The overall flood risk remains VERY LOW.

Specific Area of Concern Map 1 - Saturday 29 and Sunday 30 July

RISK AREA A

Impact **MINOR**

Likelihood **LOW**

Source River Surface
Likely duration 2 Days

Mainly for urban areas on Saturday evening and early Sunday morning.

Assessment of flood risk

Surface water

The surface water flood risk is VERY LOW for the next five days, despite the potential for heavy rainfall at times today (Friday), Saturday and Sunday.

Local minor surface water flooding impacts are possible but not expected in parts of the north of England today (Friday).

Further localised minor impacts are possible in parts of the south and east of England late on Saturday and early on Sunday (see Area A on Specific Area of Concern Map 1), due to an area of heavy thundery rain.

Local minor surface water flooding impacts are also possible but not expected for parts of England and Wales on Sunday afternoon and evening due to heavy thundery showers.

Rivers

The river flood risk is VERY LOW for the next five days, despite the potential for heavy rainfall at times today (Friday), Saturday and Sunday.

Local minor river flooding impacts are possible but not expected in parts of the north of England today (Friday).

Further localised minor river flooding impacts are possible in parts of the south and east of England late on Saturday and early on Sunday (see Area A on Specific Area of Concern Map 1), due to an area of heavy thundery rain.

Local minor river flooding impacts are also possible but not expected for parts of England and Wales on Sunday afternoon and evening due to heavy thundery showers.

Coastal/Tidal

The coastal/tidal flood risk is VERY LOW for the next five days.

Groundwater

The groundwater flood risk is VERY LOW for the next five days.

Flood Guidance Statement

Flood risk matrix

LIKELIHOOD	HIGH				
	MEDIUM				
	LOW				
	VERY LOW				
		MINIMAL	MINOR	SIGNIFICANT	SEVERE
IMPACT					
		VERY LOW	LOW	MEDIUM	HIGH
OVERALL FLOOD RISK					

Summary of potential impacts

MINIMAL

Isolated and minor flooding of low-lying land and roads
Isolated spray/wave on coastal promenades
Little or no disruption to travel, but wet road surfaces

MINOR

Localised flooding of land and roads
Flooding affecting individual properties
Disruption to travel and key sites in flood plans

SIGNIFICANT

Flooding affecting parts of communities
Possible danger to life and damage to buildings/structures
Disruption to travel and key sites in flood plans

SEVERE

Danger to life, severe disruption to travel
Widespread flooding affecting whole communities
Widespread disruption or loss of infrastructure
Large scale evacuation of properties possible

Next statement due **10:30hrs Saturday 29 July 2017 (all times are local)**
