Steady

Isolated minor surface water and river flooding impacts are possible but not expected for parts of England and Wales at times this week. The overall flood risk remains VERY LOW.

Assessment of flood risk

Surface water

The surface water flood risk is VERY LOW for the next five days, despite heavy showers and rain at times today and through the week.

Isolated minor surface water flooding impacts are possible but not expected in parts of north and central England and Wales today (Monday) and tomorrow (Tuesday) due to scattered heavy showers.

Further localised minor surface water flooding impacts are possible, but not expected, in the west of England and Wales on Wednesday night and into Thursday due to heavy rain.

Rivers

The river flood risk is VERY LOW for the next five days, despite heavy showers and rain at times today and through the week.

Isolated minor river flooding impacts are possible but not expected in small and rapidly responding catchments across parts of north and central England and Wales today (Monday) and tomorrow (Tuesday) due to scattered heavy showers.

Further localised minor river flooding impacts are possible but not expected in the west of England and Wales on Wednesday night and into Thursday due to heavy rain.

Coastal/Tidal

The coastal/tidal flood risk is VERY LOW for the next five days.

Groundwater

The groundwater flood risk is VERY LOW for the next five days.

IMPACT					
		VERY LOW	LOW	MEDIUM	HIGH
OVERALL FLOOD RISK					

Summary of potential impacts

MINIMAL

Isolated and minor flooding of low-lying land and roads
Isolated spray/wave on coastal promenades
Little or no disruption to travel, but wet road surfaces

MINOR

Localised flooding of land and roads
Flooding affecting individual properties
Disruption to travel and key sites in flood plans

SIGNIFICANT

Flooding affecting parts of communities
Possible danger to life and damage to buildings/structures
Disruption to travel and key sites in flood plans

SEVERE

Danger to life, severe disruption to travel
Widespread flooding affecting whole communities
Widespread disruption or loss of infrastructure
Large scale evacuation of properties possible
