Increased

Wednesday

9 Aug 2017

Increased

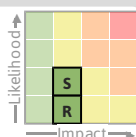

Isolated minor surface water flooding impacts are possible in central England and Wales today. Surface water impacts are also possible but not expected in eastern areas on Tuesday and Wednesday. The overall flood risk is VERY LOW.

Specific Area of Concern Map 1: Saturday 5 August

RISK AREA A

Impact **MINOR**

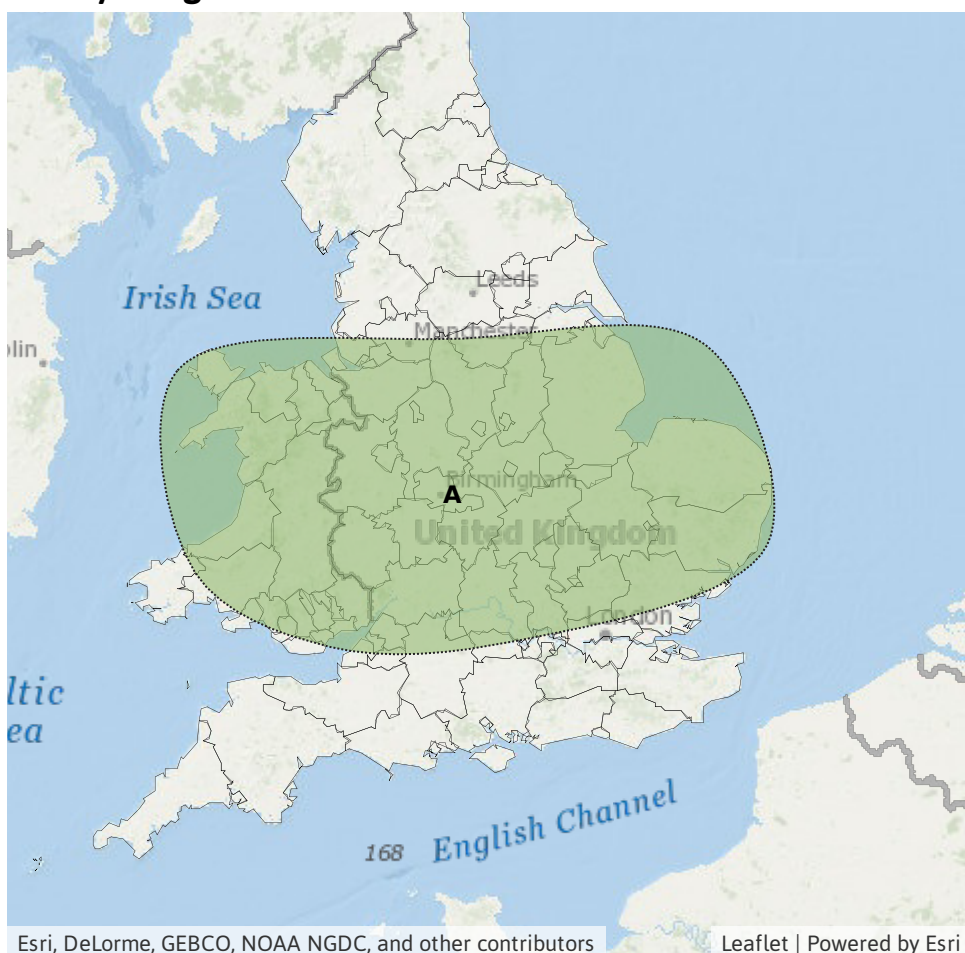

Likelihood **LOW**

Source River Surface

Likely duration 1 Day

Urban areas most at risk. Thunderstorms moving from west to east.

Assessment of flood risk

Surface water

The surface water flood risk is VERY LOW for the next five days, despite periods of heavy showers and rain at times.

Isolated minor surface water flooding impacts are possible in parts of central England and Wales today (Saturday) due to scattered locally heavy thunderstorms. The greatest likelihood of impacts is through central parts of Area A on Specific Area of Concern Map 1.

Further isolated minor surface water flooding impacts are possible but not expected in some eastern parts of England on Tuesday and Wednesday due to a risk of further thundery showers.

Rivers

The river flood risk is VERY LOW for the next five days, despite periods of heavy showers and rain at times.

Isolated river flooding impacts are possible but not expected today (Saturday) in some fast responding or small urban catchments in Area A on Specific Area of Concern Map 1, if affected by heavy thunderstorms.

Coastal/Tidal

The coastal/tidal flood risk is VERY LOW for the next five days.

Groundwater

The groundwater flood risk is VERY LOW for the next five days.

Flood Guidance Statement

10:30hrs Saturday 05 August 2017

Flood risk matrix

LIKELIHOOD	HIGH				
	MEDIUM				
	LOW				
	VERY LOW				
		MINIMAL	MINOR	SIGNIFICANT	SEVERE
IMPACT					
		VERY LOW	LOW	MEDIUM	HIGH
OVERALL FLOOD RISK					

Summary of potential impacts

MINIMAL

Isolated and minor flooding of low-lying land and roads
Isolated spray/wave on coastal promenades
Little or no disruption to travel, but wet road surfaces

MINOR

Localised flooding of land and roads
Flooding affecting individual properties
Disruption to travel and key sites in flood plans

SIGNIFICANT

Flooding affecting parts of communities
Possible danger to life and damage to buildings/structures
Disruption to travel and key sites in flood plans

SEVERE

Danger to life, severe disruption to travel
Widespread flooding affecting whole communities
Widespread disruption or loss of infrastructure
Large scale evacuation of properties possible
