Steady

Minor surface water flooding impacts are possible in parts of England and Wales on Thursday and possible but not expected on Wednesday (today) and Friday. The overall flood risk is VERY LOW.

Specific Area of Concern Map 1: Early Thursday 31 August.

RISK AREA A

Impact MINOR

Likelihood LOW

Source Surface

Likely duration 1 Day

Minor surface water impacts possible from heavy showers.

Assessment of flood risk

Surface water

The surface water flood risk is VERY LOW for the next five days.

Minor surface water flooding impacts are possible but not expected in parts of south-east England on Wednesday morning, due to a risk of heavy, thundery rain.

Early on Thursday morning minor surface water flooding impacts are possible in the north-west of England and north and west Wales from slow moving and heavy showers (see Specific Area of Concern Map 1), and possible but not expected more widely across much of England and Wales later through the day.

On Friday minor surface water flooding impacts are possible but not expected in parts the east and south of England. In these parts, localised heavy showers may become slow moving for a time.

Flooding impacts are most likely in urban areas.

Rivers

The river flood risk is VERY LOW for the next five days.

Coastal/Tidal

The coastal/tidal flood risk is VERY LOW for the next five days.

Groundwater

The groundwater flood risk is VERY LOW for the next five days.

Flood Guidance Statement

10:30hrs Wednesday 30 August 2017

Flood risk matrix

LIKELIHOOD	HIGH				
	MEDIUM				
	LOW				
	VERY LOW				
		MINIMAL	MINOR	SIGNIFICANT	SEVERE
IMPACT					
		VERY LOW	LOW	MEDIUM	HIGH
OVERALL FLOOD RISK					

Summary of potential impacts

MINIMAL

Isolated and minor flooding of low-lying land and roads
Isolated spray/wave on coastal promenades
Little or no disruption to travel, but wet road surfaces

MINOR

Localised flooding of land and roads
Flooding affecting individual properties
Disruption to travel and key sites in flood plans

SIGNIFICANT

Flooding affecting parts of communities
Possible danger to life and damage to buildings/structures
Disruption to travel and key sites in flood plans

SEVERE

Danger to life, severe disruption to travel
Widespread flooding affecting whole communities
Widespread disruption or loss of infrastructure
Large scale evacuation of properties possible
