Steady

The flood risk is VERY LOW for the next five days.

Assessment of flood risk

Coastal/Tidal

The coastal/tidal flood risk is VERY LOW for the next five days despite large waves and surge along the east coast on Sunday and Monday. Some local coastal flooding is possible around the Broads on Monday. However, impacts if they occur are expected to be minimal.

Surface water

The surface water flood risk is VERY LOW for the next five days, despite some persistent and locally heavy rain affecting parts of Wales and the south-west of England later on Friday and into Saturday.

Rivers

The river flood risk is VERY LOW for the next five day, despite some persistent and locally heavy rain affecting parts of Wales and the south-west of England later on Friday and into Saturday.

Groundwater

The groundwater flood risk is VERY LOW for the next five days.

Flood risk matrix

LIKELIHOOD	HIGH				
	MEDIUM				
	LOW				
	VERY LOW				
		MINIMAL	MINOR	SIGNIFICANT	SEVERE
IMPACT					
		VERY LOW	LOW	MEDIUM	HIGH
OVERALL FLOOD RISK					

Summary of potential impacts

MINIMAL

Isolated and minor flooding of low-lying land and roads
Isolated spray/wave on coastal promenades
Little or no disruption to travel, but wet road surfaces

MINOR

Localised flooding of land and roads
Flooding affecting individual properties
Disruption to travel and key sites in flood plans

SIGNIFICANT

Flooding affecting parts of communities
Possible danger to life and damage to buildings/structures
Disruption to travel and key sites in flood plans

SEVERE

Danger to life, severe disruption to travel
Widespread flooding affecting whole communities
Widespread disruption or loss of infrastructure
Large scale evacuation of properties possible
