Increased

Thursday

23 Nov 2017

Increased

Local minor river and surface water flooding impacts are possible for parts of northwest Wales and the north of England on Wednesday and Thursday. The overall flood risk remains VERY LOW for the next five days.

Areas of Concern Map - Wednesday 22 to Thursday 23 November 2017

RISK AREA A

Impact **MINOR**

Likelihood **LOW**

Source River Surface
Likely duration 2 Days

Minor impacts possible from Wednesday afternoon to early Thursday.

Assessment of flood risk

Rivers

Minor river flooding impacts are possible across high ground areas of northwest Wales and the north of England from Wednesday afternoon to early Thursday due to heavy and persistent rain falling across these areas. See Risk Area A in the Areas of Concern Map. In some catchments this rain will fall onto already saturated ground.

Despite this, the river flood risk remains VERY LOW for the next five days.

Surface water

Minor surface water flooding impacts are possible across high ground areas of northwest Wales and the north of England from Wednesday afternoon to early Thursday due to heavy and persistent rain falling across these areas. See Risk Area A in the Areas of Concern Map.

Elsewhere on Wednesday night and Thursday locally heavy showers may lead to some minimal surface water flooding impacts.

Despite this, the surface water flood risk remains VERY LOW for the next five days.

Coastal/Tidal

The coastal flood risk is VERY LOW for the next five days.

Groundwater

The groundwater flood risk is VERY LOW for the next five days.

Flood Guidance Statement

10:30hrs Sunday 19 November 2017

Flood risk matrix

LIKELIHOOD	HIGH				
	MEDIUM				
	LOW				
	VERY LOW				
		MINIMAL	MINOR	SIGNIFICANT	SEVERE
IMPACT					
		VERY LOW	LOW	MEDIUM	HIGH
OVERALL FLOOD RISK					

Summary of potential impacts

MINIMAL

Isolated and minor flooding of low-lying land and roads
Isolated spray/wave on coastal promenades
Little or no disruption to travel, but wet road surfaces

MINOR

Localised flooding of land and roads
Flooding affecting individual properties
Disruption to travel and key sites in flood plans

SIGNIFICANT

Flooding affecting parts of communities
Possible danger to life and damage to buildings/structures
Disruption to travel and key sites in flood plans

SEVERE

Danger to life, severe disruption to travel
Widespread flooding affecting whole communities
Widespread disruption or loss of infrastructure
Large scale evacuation of properties possible
