Assessment of flood risk

Rivers

The river flood risk is VERY LOW for the next five days. From Sunday to Tuesday some localised minor river flooding impacts are possible for parts of the north of England, as shown by Area A in Specific Areas of Concern Map 1. Any impacts will result from rainfall which may turn heavy and prolonged for a time, particularly across higher ground.

Surface water

The surface water flood risk is VERY LOW for the next five days. From Sunday to Tuesday some localised minor surface water flooding impacts are possible for parts of the north of England, as shown by Area A in Specific Areas of Concern Map 1. Any impacts will result from rainfall which may turn heavy and prolonged for a time, particularly across higher ground.

Elsewhere on Tuesday localised minor surface water flooding impacts are possible but not expected due to a band of heavy rain spreading east across England and Wales.

Coastal/Tidal

The coastal flood risk is VERY LOW for the next five days.

Groundwater

The groundwater flood risk is VERY LOW for the next five days.

Flood Guidance Statement

10:30hrs Friday 22 December 2017

6-10 day forecast

Successive spells of wet and windy weather are expected during this period with strong winds and heavy rain at times bringing the potential for disruption from flooding. Places considered most prone are Wales and western parts of England.

Flood risk matrix

LIKELIHOOD	HIGH				
	MEDIUM				
	LOW				
	VERY LOW				
		MINIMAL	MINOR	SIGNIFICANT	SEVERE
IMPACT					
		VERY LOW	LOW	MEDIUM	HIGH
OVERALL FLOOD RISK					

Summary of potential impacts

MINIMAL

Isolated and minor flooding of low-lying land and roads
Isolated spray/wave on coastal promenades
Little or no disruption to travel, but wet road surfaces

MINOR

Localised flooding of land and roads
Flooding affecting individual properties
Disruption to travel and key sites in flood plans

SIGNIFICANT

Flooding affecting parts of communities
Possible danger to life and damage to buildings/structures
Disruption to travel and key sites in flood plans

SEVERE

Danger to life, severe disruption to travel
Widespread flooding affecting whole communities
Widespread disruption or loss of infrastructure
Large scale evacuation of properties possible

Next statement due **10:30hrs Saturday 23 December 2017 (all times are local)**
