Steady

Minor river flood impacts are expected around the River Ouse in York, and probable around the River Severn today (Friday). The overall flood risk is LOW. See end of FGS for 6-10 day forecast.

## Specific Areas of Concern Map 1: Friday 26 January

### RISK AREA A

Impact **MINOR**

Likelihood **HIGH**

Source River

Likely duration 1 Day

Flood impacts are expected in York around the River Ouse.

### RISK AREA B

Impact **MINOR**

Likelihood **MEDIUM**

Source River

Likely duration 1 Day

Flood impacts are probable around the River Severn.

## Assessment of flood risk

### Rivers

---

The overall river flood risk is LOW.

Minor river flooding impacts are expected around the River Ouse in York, and probable along parts of the River Severn today (Friday) - see Area A and Area B in Specific Areas of Concern Map 1.

### Coastal/Tidal

---

The coastal/tidal flood risk is VERY LOW for the next five days.

### Surface water

---

The overall surface water flood risk is VERY LOW for the next five days.

### Groundwater

---

The groundwater flood risk is VERY LOW for the next five days.

## 6-10 day forecast

Unsettled weather is expected during the 6-10 day forecast with high astronomical tides peaking during the period. This may lead to some coastal impacts.

## Flood risk matrix

| LIKELIHOOD | HIGH     |                    |       |             |        |
|------------|----------|--------------------|-------|-------------|--------|
|            | MEDIUM   |                    |       |             |        |
|            | LOW      |                    |       |             |        |
|            | VERY LOW |                    |       |             |        |
|            |          | MINIMAL            | MINOR | SIGNIFICANT | SEVERE |
|            |          | IMPACT             |       |             |        |
|            |          |                    |       |             |        |
|            |          | VERY LOW           | LOW   | MEDIUM      | HIGH   |
|            |          | OVERALL FLOOD RISK |       |             |        |

## Summary of potential impacts

### MINIMAL

Isolated and minor flooding of low-lying land and roads  
Isolated spray/wave on coastal promenades  
Little or no disruption to travel, but wet road surfaces

### MINOR

Localised flooding of land and roads  
Flooding affecting individual properties  
Disruption to travel and key sites in flood plans

### SIGNIFICANT

Flooding affecting parts of communities  
Possible danger to life and damage to buildings/structures  
Disruption to travel and key sites in flood plans

### SEVERE

Danger to life, severe disruption to travel  
Widespread flooding affecting whole communities  
Widespread disruption or loss of infrastructure  
Large scale evacuation of properties possible
