Steady

Minor coastal flooding impacts are probable along parts of the north-east coast of England on Thursday and Friday. Minor impacts are also possible elsewhere along parts of the north-east and south-west coasts of England. The overall flood risk is LOW.

Specific Areas of Concern Map 1: Thursday 1 and Friday 2 March

RISK AREA A

Impact **MINOR**

Likelihood **MEDIUM**

Source Coastal/Tidal
Likely duration 2 Days

Large waves around the times of high water probably leading to localised impacts

RISK AREA B

Impact **MINOR**

Likelihood **LOW**

Source Coastal/Tidal
Likely duration 2 Days

Large waves around times of high water possibly leading to localised impacts

Assessment of flood risk

Coastal/Tidal

The overall coastal flood risk is LOW on Thursday and Friday.

Minor coastal flooding impacts are probable along coastlines A and possible along coastlines B, in Specific Areas of Concern Map 1 on Thursday and Friday. Strong winds and large waves coincide with high astronomical tides, which could result in localised minor impacts around times of high water.

Elsewhere, minor coastal flooding impacts are also possible but not expected along parts of the south and south-west coasts of England and Wales from Thursday to Sunday, due to a combination of strong winds, large waves and/or high astronomical tides.

Rivers

The river flood risk is VERY LOW for the next five days, despite a steady thaw of lying snow through the weekend.

Surface water

The surface water flood risk is VERY LOW for the next five days.

Groundwater

The groundwater flood risk is VERY LOW for the next five days.

Flood Guidance Statement

Flood risk matrix

LIKELIHOOD	HIGH				
	MEDIUM				
	LOW				
	VERY LOW				
		MINIMAL	MINOR	SIGNIFICANT	SEVERE
IMPACT					
		VERY LOW	LOW	MEDIUM	HIGH
OVERALL FLOOD RISK					

Summary of potential impacts

MINIMAL

Isolated and minor flooding of low-lying land and roads
Isolated spray/wave on coastal promenades
Little or no disruption to travel, but wet road surfaces

MINOR

Localised flooding of land and roads
Flooding affecting individual properties
Disruption to travel and key sites in flood plans

SIGNIFICANT

Flooding affecting parts of communities
Possible danger to life and damage to buildings/structures
Disruption to travel and key sites in flood plans

SEVERE

Danger to life, severe disruption to travel
Widespread flooding affecting whole communities
Widespread disruption or loss of infrastructure
Large scale evacuation of properties possible
