Steady

Minor surface water flooding impacts are possible across parts of East Anglia today (Sunday). The overall flood risk remains VERY LOW.

Specific Areas of Concern Map 1: Sunday 22 April 2018

RISK AREA A

Impact **MINOR**

Likelihood **LOW**

Source Surface

Likely duration 1 Day

Isolated thunderstorms during Sunday afternoon.

Assessment of flood risk

Surface water

Isolated thunderstorms may lead to surface water flooding across parts of East Anglia during Sunday afternoon. Minor flooding impacts are possible. See Specific Areas of Concern Map 1.

The surface water flood risk remains VERY LOW for the next five days.

Groundwater

The groundwater flood risk is VERY LOW for the next five days.

Groundwater levels remain high across parts of Hampshire and West Berkshire, with some ongoing minimal impacts. Levels are not expected to rise further.

Groundwater levels are high in North Yorkshire and the East Riding of Yorkshire. However, in the absence of significant widespread rain over the next few days, levels should begin to plateau and then slowly decline. No groundwater flooding impacts are currently expected.

Rivers

The river flood risk is VERY LOW for the next five days despite isolated thunderstorms during Sunday afternoon.

Coastal/Tidal

The coastal/tidal flood risk is VERY LOW for the next five days.

Flood Guidance Statement

10:30hrs Sunday 22 April 2018

Flood risk matrix

LIKELIHOOD	HIGH				
	MEDIUM				
	LOW				
	VERY LOW				
		MINIMAL	MINOR	SIGNIFICANT	SEVERE
IMPACT					
		VERY LOW	LOW	MEDIUM	HIGH
OVERALL FLOOD RISK					

Summary of potential impacts

MINIMAL

Isolated and minor flooding of low-lying land and roads
Isolated spray/wave on coastal promenades
Little or no disruption to travel, but wet road surfaces

MINOR

Localised flooding of land and roads
Flooding affecting individual properties
Disruption to travel and key sites in flood plans

SIGNIFICANT

Flooding affecting parts of communities
Possible danger to life and damage to buildings/structures
Disruption to travel and key sites in flood plans

SEVERE

Danger to life, severe disruption to travel
Widespread flooding affecting whole communities
Widespread disruption or loss of infrastructure
Large scale evacuation of properties possible
