Steady

Localised minor surface water flooding is possible but not expected later today (Tuesday) across parts of East Anglia. The overall flood risk is VERY LOW for the next five days.

Assessment of flood risk

Surface water

Localised, minor surface water flooding impacts are possible but not expected across parts of East Anglia this (Tuesday) afternoon and evening. This is due to the possibility of some isolated, heavy thunderstorms. However, the overall surface water flood risk is VERY LOW for the next five days.

Rivers

Localised, minor river flooding impacts are possible but not expected across parts of East Anglia this (Tuesday) afternoon and evening. This is due to the potential for some isolated, heavy thunderstorms. Any impacts will be restricted to fast responding urban watercourses. However, the river flood risk is VERY LOW for the next five days.

Groundwater

The groundwater flood risk is VERY LOW for the next five days.

Groundwater levels remain high across parts of Hampshire and West Berkshire. However, with a generally settled forecast over the next five days in these areas, levels are expected to fall.

Coastal/Tidal

The coastal/tidal flood risk is VERY LOW for the next five days.

Flood risk matrix

LIKELIHOOD	HIGH				
	MEDIUM				
	LOW				
	VERY LOW				
		MINIMAL	MINOR	SIGNIFICANT	SEVERE
IMPACT					
		VERY LOW	LOW	MEDIUM	HIGH
OVERALL FLOOD RISK					

Summary of potential impacts

MINIMAL

Isolated and minor flooding of low-lying land and roads
Isolated spray/wave on coastal promenades
Little or no disruption to travel, but wet road surfaces

MINOR

Localised flooding of land and roads
Flooding affecting individual properties
Disruption to travel and key sites in flood plans

SIGNIFICANT

Flooding affecting parts of communities
Possible danger to life and damage to buildings/structures
Disruption to travel and key sites in flood plans

SEVERE

Danger to life, severe disruption to travel
Widespread flooding affecting whole communities
Widespread disruption or loss of infrastructure
Large scale evacuation of properties possible
