Tuesday

15 May 2018

Steady

Wednesday

16 May 2018

Steady

The flood risk is VERY LOW for the next five days.

## Assessment of flood risk

### Surface water

The surface water flood risk is VERY LOW for the next five days despite some locally heavy rain at times across the east of England this weekend and potential for localised heavy showers on Tuesday.

### Rivers

The river flood risk is VERY LOW for the next five days, despite some persistent and locally heavy rain across parts of central, southern and eastern England this weekend and potential for localised heavy showers on Tuesday.

### Groundwater

The groundwater flood risk is VERY LOW for the next five days.

Groundwater levels remain high across parts of Hampshire and West Berkshire. However, following the recent dry weather, levels are expected to continue falling in most locations.

### Coastal/Tidal

The coastal/tidal flood risk is VERY LOW for the next five days.

## Flood risk matrix

| LIKELIHOOD         | HIGH     |          |       |             |        |
|--------------------|----------|----------|-------|-------------|--------|
|                    | MEDIUM   |          |       |             |        |
|                    | LOW      |          |       |             |        |
|                    | VERY LOW |          |       |             |        |
|                    |          | MINIMAL  | MINOR | SIGNIFICANT | SEVERE |
| IMPACT             |          |          |       |             |        |
|                    |          |          |       |             |        |
|                    |          | VERY LOW | LOW   | MEDIUM      | HIGH   |
| OVERALL FLOOD RISK |          |          |       |             |        |

## Summary of potential impacts

### MINIMAL

Isolated and minor flooding of low-lying land and roads  
Isolated spray/wave on coastal promenades  
Little or no disruption to travel, but wet road surfaces

### MINOR

Localised flooding of land and roads  
Flooding affecting individual properties  
Disruption to travel and key sites in flood plans

### SIGNIFICANT

Flooding affecting parts of communities  
Possible danger to life and damage to buildings/structures  
Disruption to travel and key sites in flood plans

### SEVERE

Danger to life, severe disruption to travel  
Widespread flooding affecting whole communities  
Widespread disruption or loss of infrastructure  
Large scale evacuation of properties possible
