Significant surface water flooding impacts are possible in parts of England and Wales on Thursday, and possible but not expected on Friday. Small rivers may also respond. The overall flood risk is LOW.

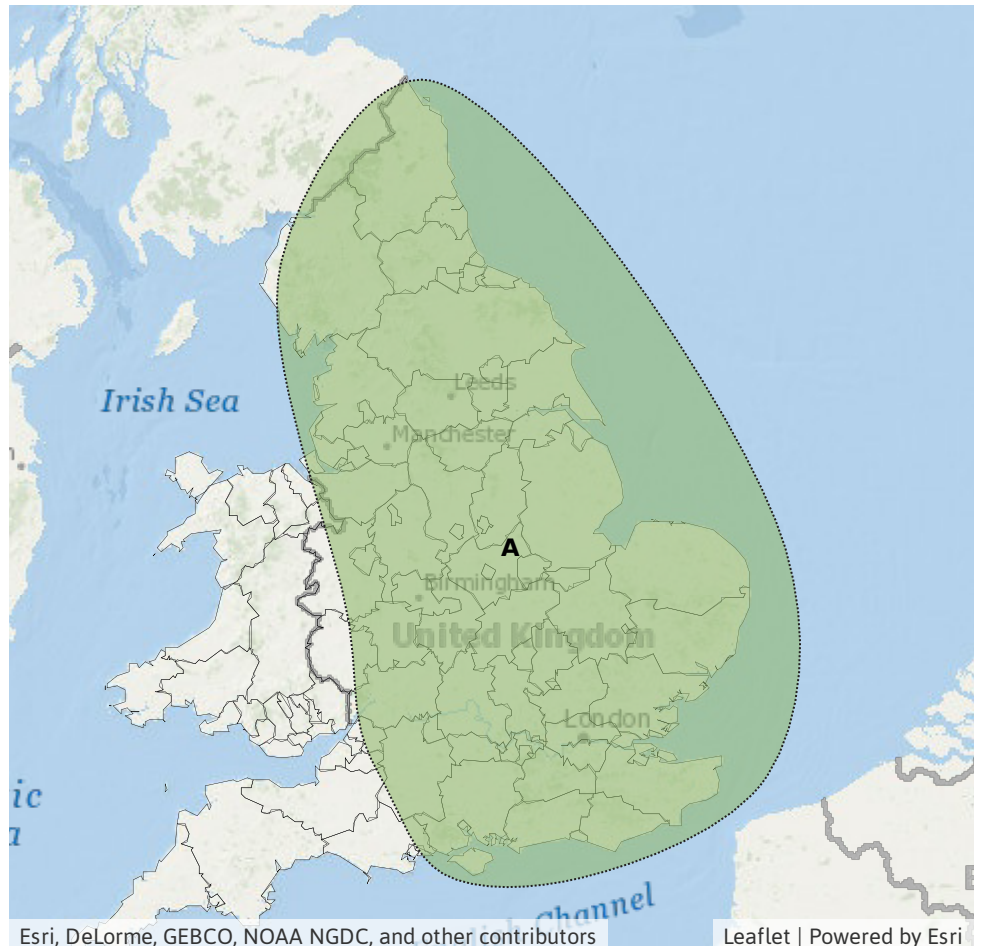

## Specific Areas of Concern Map 1 - Wednesday 30 May 2018

**RISK AREA A**  
Impact **MINOR**  
Likelihood **LOW**

Source River Surface  
Likely duration 1 Day

Localised impacts possible. Urban areas and small catchments most prone.

### Specific Areas of Concern Map 2 - Thursday 31 May 2018

#### RISK AREA B

Impact **SIGNIFICANT**

Likelihood **LOW**

Source River Surface

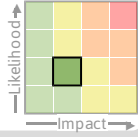

Likely duration 1 Day

From mid morning onwards. Urban areas and small catchments most prone.

#### RISK AREA C

Impact **MINOR**

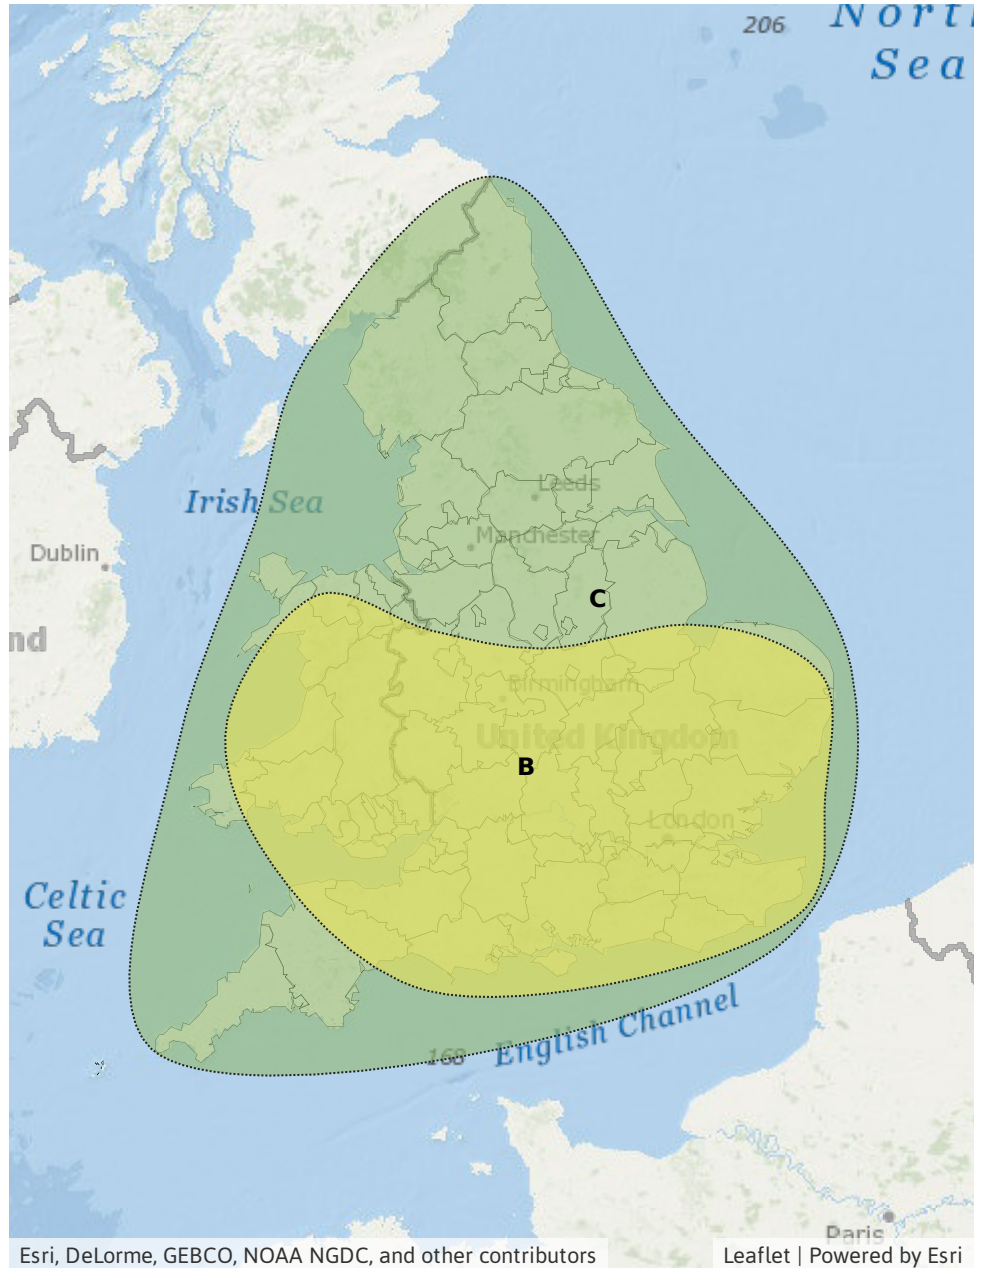

Likelihood **LOW**

Source River Surface

Likely duration 2 Days

Urban areas and small catchments most at risk.

### Specific Areas of Concern Map 3 - Friday 1 June 2018

#### RISK AREA C

Impact **MINOR**

Likelihood **LOW**

Source River Surface

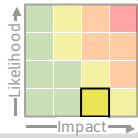

Likely duration 2 Days

Urban areas and small catchments most at risk.

#### RISK AREA D

Impact **SIGNIFICANT**

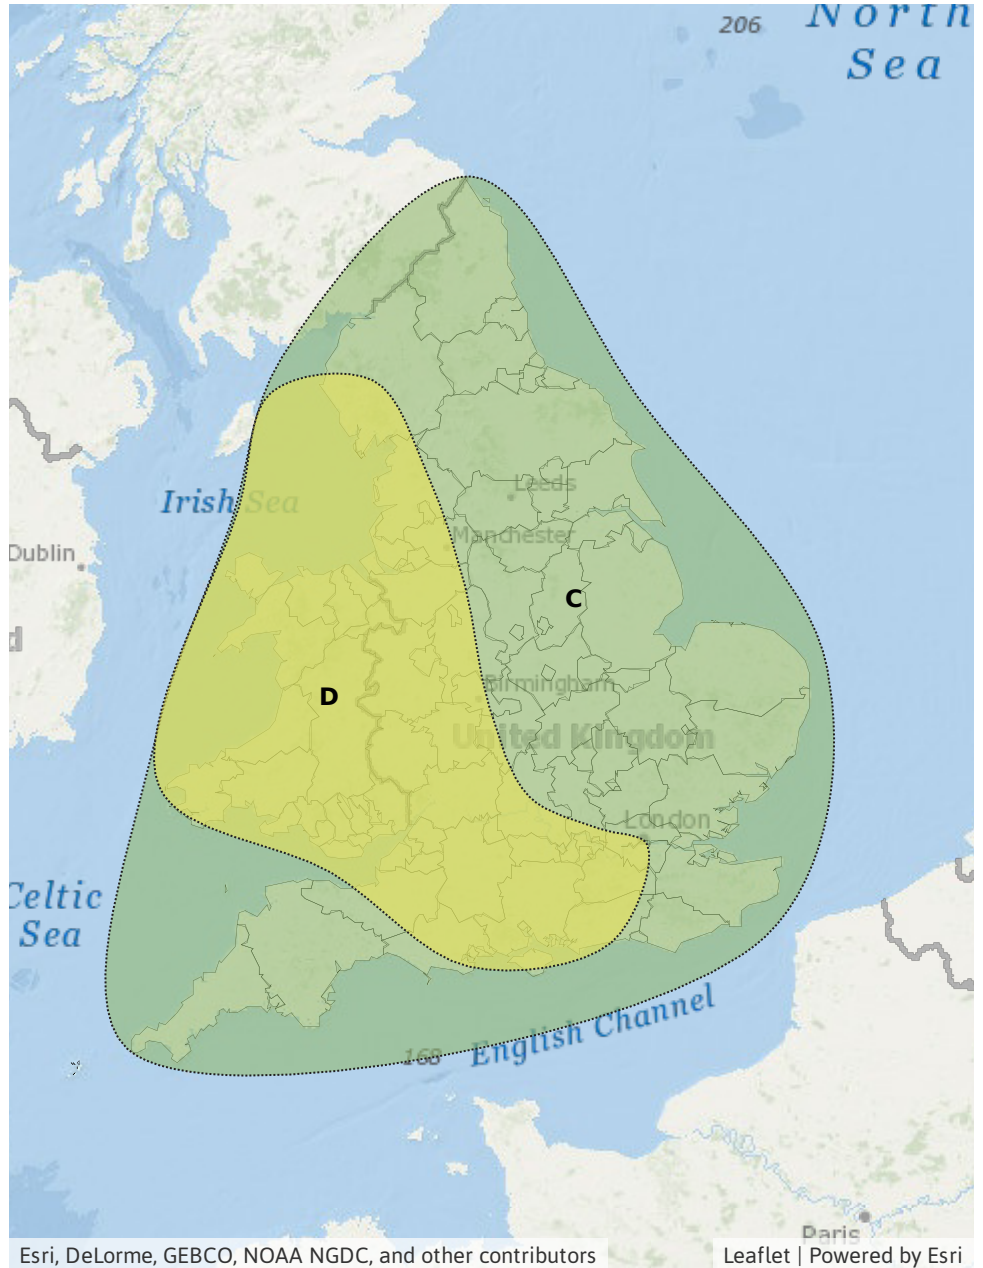

Likelihood **VERY LOW**

Source River Surface

Likely duration 1 Day

Urban areas and small catchments most at risk.

### Assessment of flood risk

#### Surface water

---

The surface water flood risk is LOW for Thursday and Friday.

Local significant surface water flooding impacts are possible from mid morning onwards on Thursday across parts of England and Wales as shown in Areas of Concern Map 2. This is due to the potential for particularly heavy and slow-moving thunderstorms.

During Friday further thunderstorms could develop, most likely across the west and south of England and Wales. Local significant surface water flooding impacts are currently possible but not expected. See Areas of Concern Map 3. Urban areas are particularly at risk of surface water flooding on both Thursday and Friday.

Local minor flooding impacts are also possible across parts of England and Wales today (Wednesday). See Areas of Concern Map 1.

On Saturday afternoon, local minor surface water flooding impacts are possible but not expected across parts of northern England. This is due to further thunderstorms.

#### Rivers

---

The river flood risk is LOW for Thursday and Friday.

Local significant river flooding impacts are possible but not expected on Thursday and Friday across parts of England and Wales as shown in Areas of Concern Maps 2 and 3. This is due to the potential for particularly heavy and slow-moving thunderstorms. Urban rivers and fast responding catchments are at greatest risk.

Local minor river flooding impacts are possible but not expected across parts of England and Wales today (Wednesday). See Areas of Concern Map 1.

On Saturday afternoon, local minor river flooding impacts are possible but not expected across parts of northern England. This is due to further thunderstorms.

#### Groundwater

---

The groundwater flood risk is VERY LOW for the next five days.

#### Coastal/Tidal

---

The coastal/tidal flood risk is VERY LOW for the next five days.

# Flood Guidance Statement

10:30hrs Wednesday 30 May 2018

### Flood risk matrix

### Summary of potential impacts

#### MINIMAL

Isolated and minor flooding of low-lying land and roads  
Isolated spray/wave on coastal promenades  
Little or no disruption to travel, but wet road surfaces

#### MINOR

Localised flooding of land and roads  
Flooding affecting individual properties  
Disruption to travel and key sites in flood plans

#### SIGNIFICANT

Flooding affecting parts of communities  
Possible danger to life and damage to buildings/structures  
Disruption to travel and key sites in flood plans

#### SEVERE

Danger to life, severe disruption to travel  
Widespread flooding affecting whole communities  
Widespread disruption or loss of infrastructure  
Large scale evacuation of properties possible

Next statement due **10:30hrs Thursday 31 May 2018 (all times are local)**
