Increased

Minor surface water flooding impacts are possible but not expected across the south west of England and south of Wales on Sunday and Monday. The overall flood risk for England and Wales for the next five days is VERY LOW.

## Assessment of flood risk

### Surface water

The surface water flood risk is VERY LOW for the next five days.

Minor surface water flooding impacts are possible but not expected across the south west of England and the south of Wales on Sunday and Monday due to the potential for heavy thunderstorms. The occurrence of any thunderstorms over land is very uncertain and they may just as well remain offshore. Any impacts will be localised with urban areas most at risk.

### Rivers

The river flood risk is VERY LOW for the next five days.

Minor river flooding impacts are possible but not expected across the south west of England and the south of Wales on Sunday due to the potential for heavy thunderstorms. The occurrence of any thunderstorms is very uncertain and they may just as well remain offshore. Any impacts will be localised and restricted to small, fast responding and urban catchments.

### Coastal/Tidal

The coastal/tidal flood risk is VERY LOW for the next five days.

### Groundwater

The groundwater flood risk is VERY LOW for the next five days.

### Flood risk matrix

### Summary of potential impacts

**MINIMAL**

Isolated and minor flooding of low-lying land and roads  
Isolated spray/wave on coastal promenades  
Little or no disruption to travel, but wet road surfaces

**MINOR**

Localised flooding of land and roads  
Flooding affecting individual properties  
Disruption to travel and key sites in flood plans

**SIGNIFICANT**

Flooding affecting parts of communities  
Possible danger to life and damage to buildings/structures  
Disruption to travel and key sites in flood plans

**SEVERE**

Danger to life, severe disruption to travel  
Widespread flooding affecting whole communities  
Widespread disruption or loss of infrastructure  
Large scale evacuation of properties possible
