

Flood Guidance Statement

10:30hrs Monday 08 April 2019

Monday

8 Apr 2019 10:30-23:59
Trend since last FGS

Increased

Tuesday

9 Apr 2019

Steady

Wednesday

10 Apr 2019

Steady

Thursday

11 Apr 2019

Steady

Friday

12 Apr 2019

Steady

Minor surface water flooding impacts are possible today (Monday). The overall flood risk for the next five days is **VERY LOW**.

Specific Areas of Concern Map 1

RISK AREA A

Impact **MINOR**

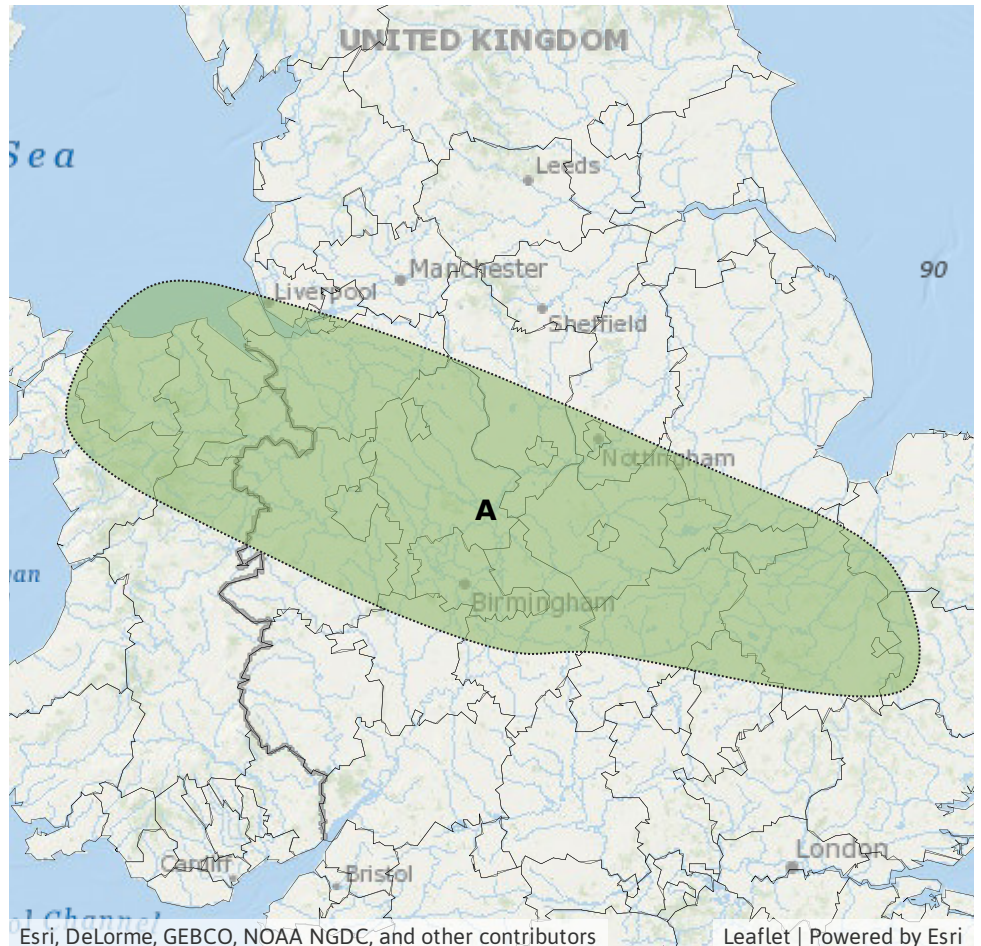

Likelihood **LOW**

Source Surface

Likely duration 1 Day

Surface water flooding impacts possible if heavy showers affect urban areas.

Assessment of flood risk

Surface water

The surface water flood risk is VERY LOW for the next five days.

Localised minor surface water flooding impacts are possible across north-west and central England and north Wales, and possible but not expected in the south-east of England this afternoon and evening (Monday). This is due to the potential for isolated, heavy showers to develop.

Rivers

The river flood risk is VERY LOW for the next five days.

Coastal/Tidal

The coastal/tidal flood risk is VERY LOW for the next five days.

Groundwater

The groundwater flood risk is VERY LOW for the next five days.

Flood risk matrix

Summary of potential impacts

MINIMAL

Isolated and minor flooding of low-lying land and roads
Isolated spray/wave on coastal promenades
Little or no disruption to travel, but wet road surfaces

MINOR

Localised flooding of land and roads
Flooding affecting individual properties
Disruption to travel and key sites in flood plans

SIGNIFICANT

Flooding affecting parts of communities
Possible danger to life and damage to buildings/structures
Disruption to travel and key sites in flood plans

SEVERE

Danger to life, severe disruption to travel
Widespread flooding affecting whole communities
Widespread disruption or loss of infrastructure
Large scale evacuation of properties possible

Next statement due **10:30hrs Tuesday 09 April 2019 (all times are local)**
