Increased ↑

Significant surface water flooding impacts are possible but not expected on Thursday across parts of the north of England. Minor surface water and river flooding impacts are also possible on Thursday and Friday. The overall flood risk is LOW.

Specific Area of Concern Map 1: Thursday 11 July 2019

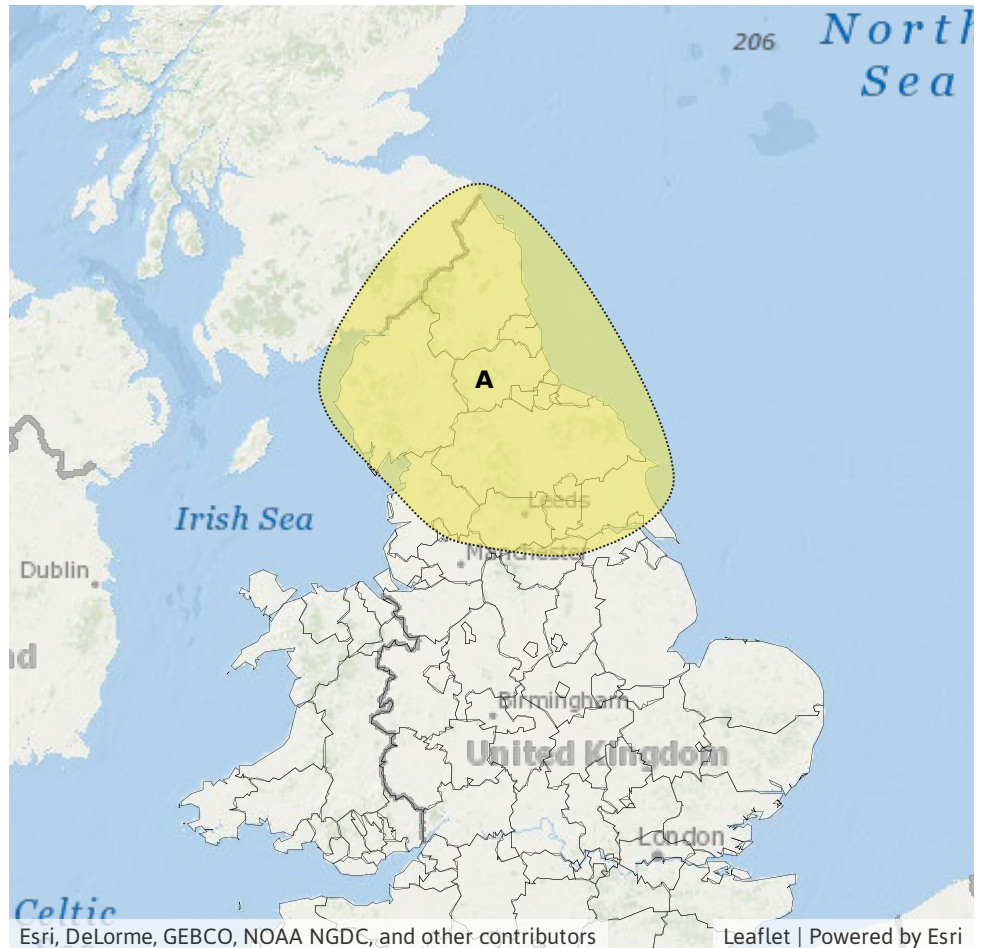

RISK AREA A

Impact **SIGNIFICANT**
Likelihood **VERY LOW**

Source River Surface
Likely duration 1 Day

Isolated heavy thunderstorms possible PM.
Urban areas most at risk.

Flood Guidance Statement

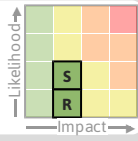

10:30hrs Monday 08 July 2019

Specific Area of Concern Map 2: Friday 12 July 2019

RISK AREA **B**

Impact **MINOR**

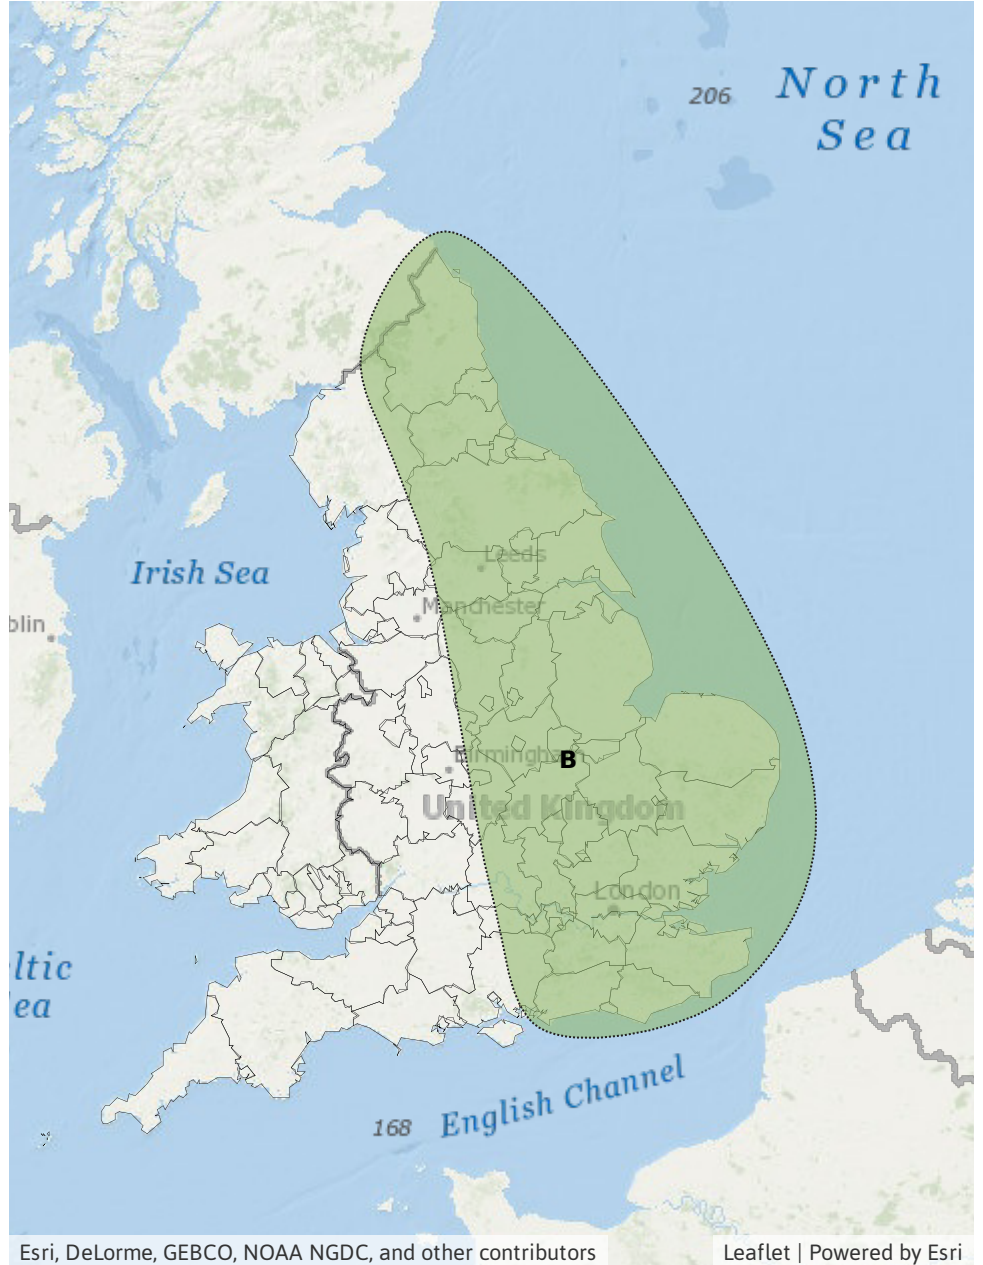

Likelihood **LOW**

Source River Surface

Likely duration 1 Day

Isolated heavy thunderstorms possible PM.
Urban areas most at risk.

Assessment of flood risk

Surface water

The overall surface water flood risk is LOW.

Local significant surface water flooding impacts are possible but not expected on Thursday in parts of the north of England, due to the potential for isolated heavy showers or thunderstorms. Elsewhere on Thursday, local minor surface water impacts are possible but not expected. On Friday, isolated heavy showers or thunderstorms may develop across parts of central and east England where local minor surface water impacts are possible. Urban areas are most at risk in the afternoon and evening on both days.

Rivers

The overall river flood risk is VERY LOW for the next five days.

Minor river flooding impacts are possible but not expected in parts of the north of England on Thursday, and then in parts of central and east of England on Friday. This is due to the potential for isolated heavy showers or thunderstorms. Urbanised and fast-responding catchments most at risk.

Coastal/Tidal

The coastal/tidal flood risk is VERY LOW for the next five days.

Groundwater

The groundwater flood risk is VERY LOW for the next five days.

Flood risk matrix

Summary of potential impacts

MINIMAL

Isolated and minor flooding of low-lying land and roads
Isolated spray/wave on coastal promenades
Little or no disruption to travel, but wet road surfaces

MINOR

Localised flooding of land and roads
Flooding affecting individual properties
Disruption to travel and key sites in flood plans

SIGNIFICANT

Flooding affecting parts of communities
Possible danger to life and damage to buildings/structures
Disruption to travel and key sites in flood plans

SEVERE

Danger to life, severe disruption to travel
Widespread flooding affecting whole communities
Widespread disruption or loss of infrastructure
Large scale evacuation of properties possible

Next statement due **10:30hrs Tuesday 09 July 2019 (all times are local)**
