Increased ↑

Minor river flooding impacts are possible over parts of Wales today (Sunday). Minor river and surface water flooding impacts are possible but not expected at times across England and Wales during the next five days. The overall flood risk is VERY LOW.

Specific Areas of Concern Map 1: Sunday 03 November 2019

RISK AREA A
Impact **MINOR**
Likelihood **LOW**

Source River Surface
Likely duration 1 Day

Minor river flooding impacts on Sunday.

Assessment of flood risk

Rivers

The river flood risk is VERY LOW.

Minor river flooding is possible in parts of Wales today (Sunday) as rivers respond to Saturday's rainfall.

Minor river flooding impacts are also possible but not expected across many parts of England and Wales at times during the next five days. This is due to outbreaks of rain and showers falling on saturated catchments.

Surface water

The surface water flood risk is VERY LOW.

Minor surface water flooding impacts are possible but not expected across many parts of England and Wales at times during the next five days. This is due to outbreaks of rain and showers falling onto already saturated ground. Leaf fall is likely to block drains and impede drainage in places which will increase the potential for surface water flooding locally.

Coastal/Tidal

The coastal/tidal flood risk is VERY LOW despite strong winds and large waves at times.

Groundwater

The groundwater flood risk is VERY LOW for the next five days.

Flood risk matrix

Summary of potential impacts

MINIMAL

Isolated and minor flooding of low-lying land and roads
Isolated spray/wave on coastal promenades
Little or no disruption to travel, but wet road surfaces

MINOR

Localised flooding of land and roads
Flooding affecting individual properties
Disruption to travel and key sites in flood plans

SIGNIFICANT

Flooding affecting parts of communities
Possible danger to life and damage to buildings/structures
Disruption to travel and key sites in flood plans

SEVERE

Danger to life, severe disruption to travel
Widespread flooding affecting whole communities
Widespread disruption or loss of infrastructure
Large scale evacuation of properties possible

Next statement due **10:30hrs Monday 04 November 2019 (all times are local)**
