Minor surface water, river and groundwater impacts are probable and coastal/tidal is possible at times over the next five days. The overall flood risk is LOW.

Specific Areas of Concern Map 1: Tuesday 26 and Wednesday 27 November.

RISK AREA A

Impact **MINOR**
Likelihood **HIGH**

Source Ground
Likely duration 5 + Days

Minor impacts from groundwater flooding from Monday for at least the next five days.

RISK AREA B

Impact **MINOR**
Likelihood **MEDIUM**

Source River Surface
Likely duration 2 Days

Minor impacts from heavy rain and showers on Tuesday to Wednesday.

RISK AREA C

Impact **MINOR**
Likelihood **MEDIUM**

Source River Surface
Likely duration 3 Days

Impacts from heavy rain on Wednesday into Thursday. Impacts possible into Friday.

RISK AREA D

Impact **MINOR**
Likelihood **MEDIUM**

Source River
Likely duration 2 Days

Minor river flooding probable on the lower Severn on Wednesday and Thursday.

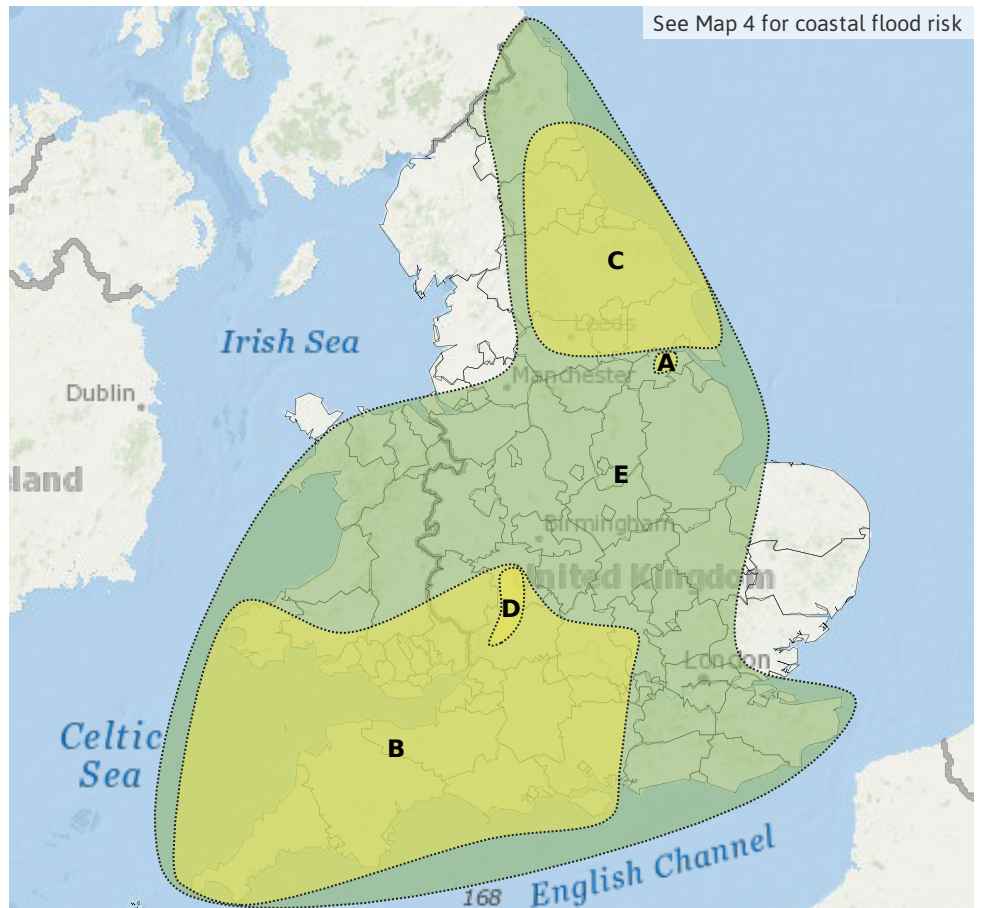

RISK AREA E

Impact **MINOR**
Likelihood **LOW**

Source River Surface
Likely duration 2 Days

Heavy rain possibly bringing further flooding on Tuesday and Wednesday.

See Map 4 for coastal flood risk

Flood Guidance Statement

10:30hrs Monday 25 November 2019

Specific Areas of Concern Map 2: Thursday 28 November.

RISK AREA A

Impact **MINOR**
Likelihood **HIGH**

Source Ground

Likely duration 5 + Days

Minor impacts from groundwater flooding from Monday for at least the next five days.

RISK AREA C

Impact **MINOR**
Likelihood **MEDIUM**

Source River Surface

Likely duration 3 Days

Impacts from heavy rain on Wednesday into Thursday. Impacts possible into Friday.

RISK AREA D

Impact **MINOR**
Likelihood **MEDIUM**

Source River

Likely duration 2 Days

Minor river flooding probable on the lower Severn on Wednesday and Thursday.

RISK AREA F

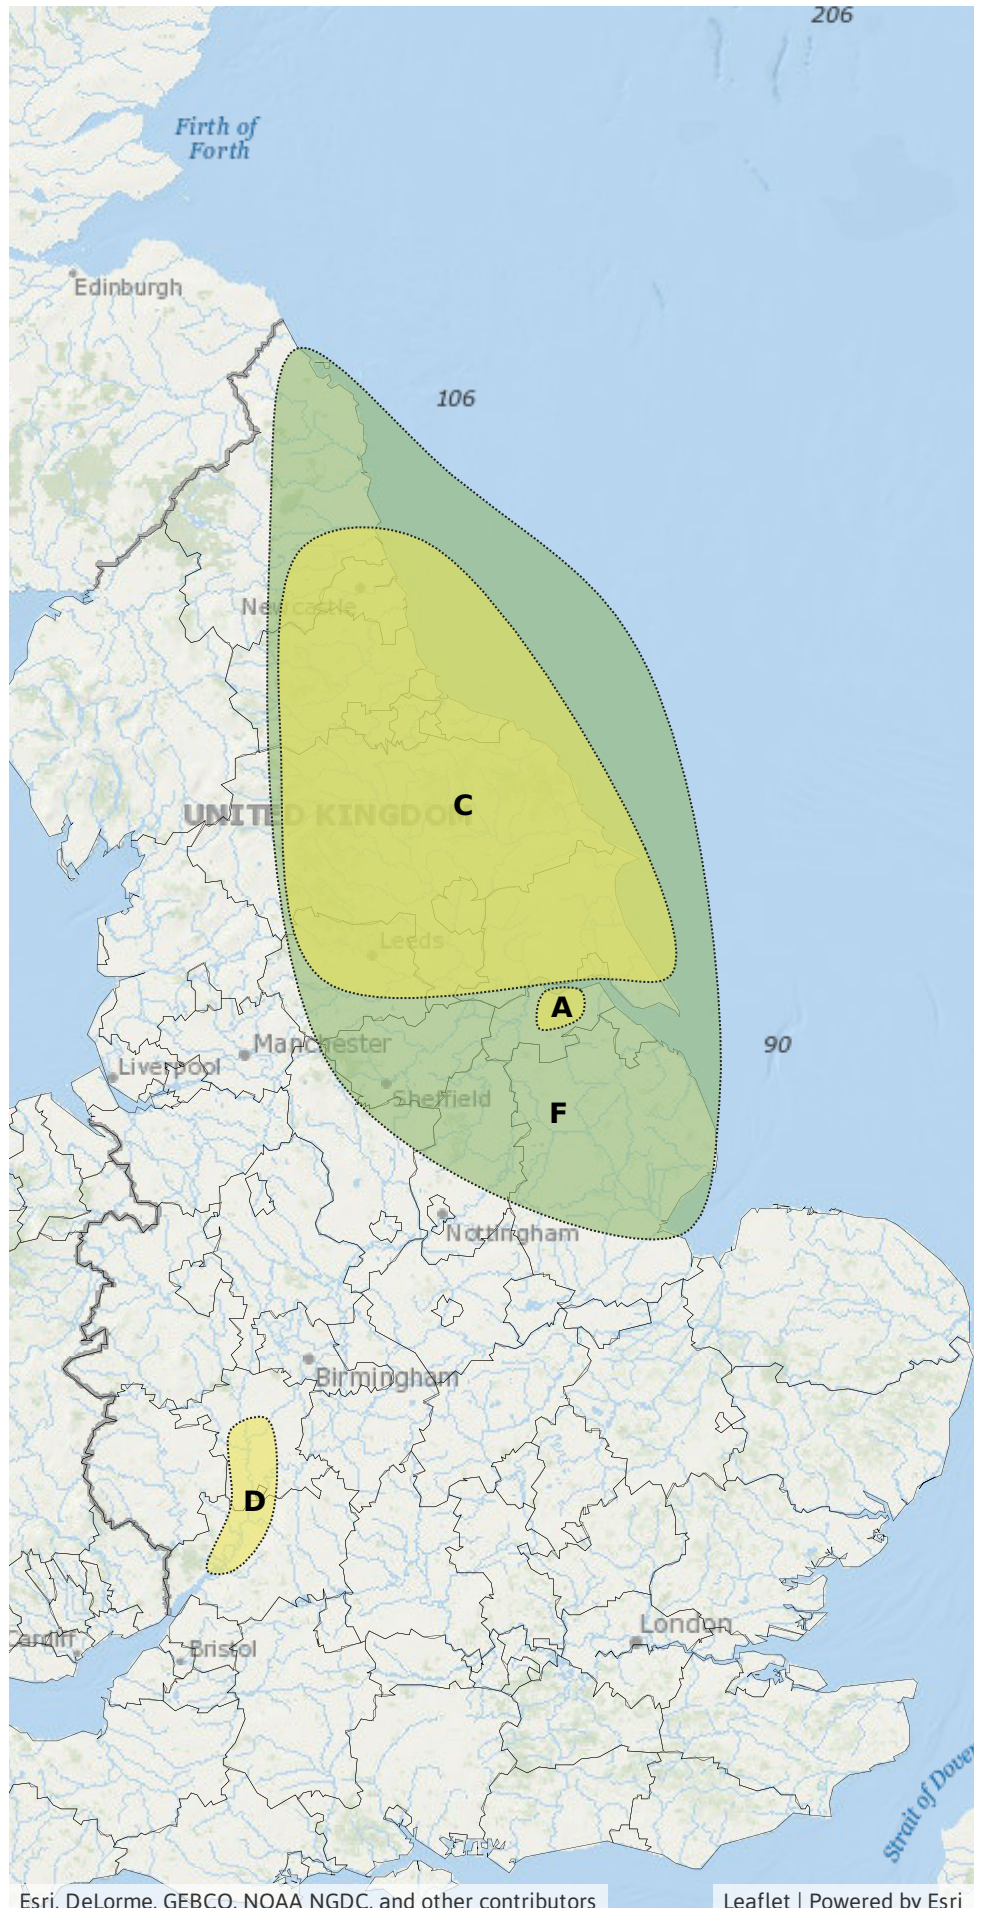

Impact **MINOR**
Likelihood **LOW**

Source River Surface

Likely duration 1 Day

Impacts possible from rain clearing east during Thursday.

Specific Areas of Concern Map 3: Friday 29 November 2019.

RISK AREA A

Impact **MINOR**
Likelihood **HIGH**

Source Ground

Likely duration 5 + Days

Minor impacts from groundwater flooding from Monday for at least the next five days.

RISK AREA C

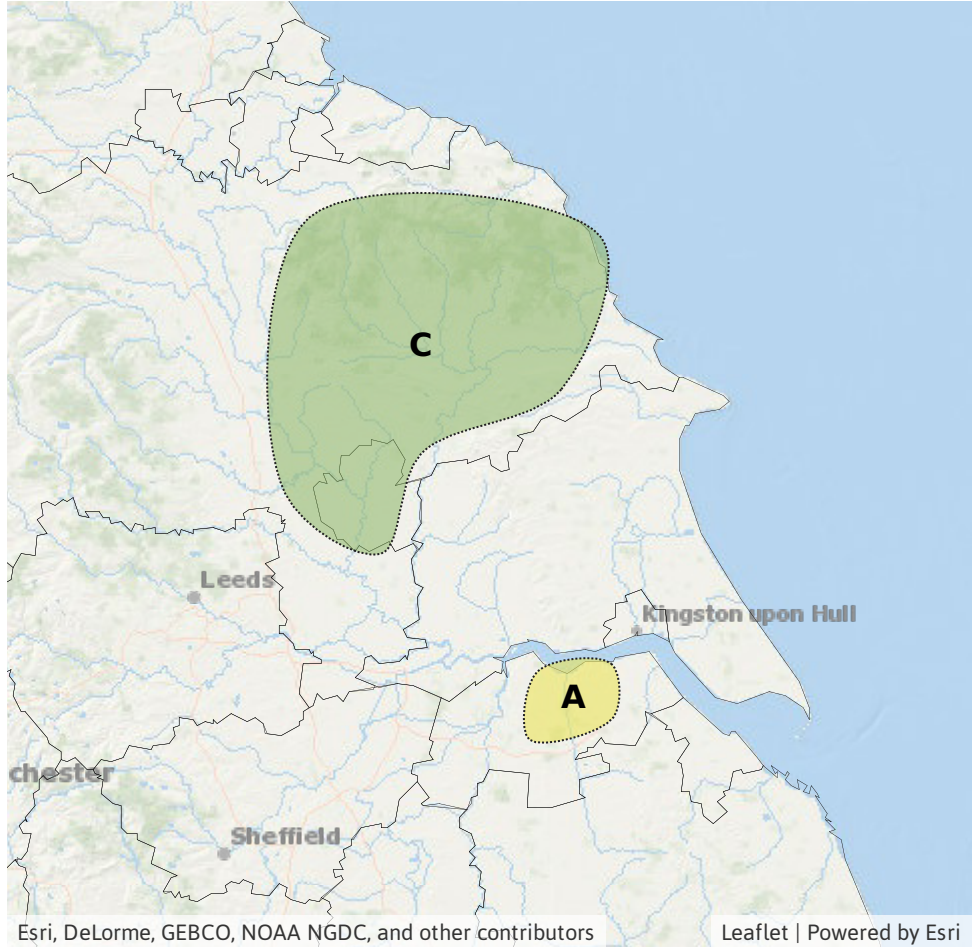

Impact **MINOR**
Likelihood **LOW**

Source River

Likely duration 3 Days

River impacts continuing into Friday.

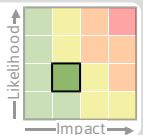

Flood Guidance Statement

10:30hrs Monday 25 November 2019

Specific Areas of Concern Map 4: Later Tuesday 26 to Friday 29 November.

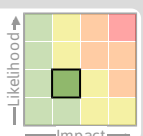

RISK AREA G
Impact **MINOR**
Likelihood **LOW**

Source Coastal/Tidal
Likely duration 2 Days

Local coastal impacts possible around high tides later Tuesday into Wednesday.

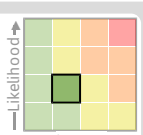

RISK AREA H
Impact **MINOR**
Likelihood **LOW**

Source Coastal/Tidal
Likely duration 3 Days

Local minor coastal impacts possible around high tides Wednesday to Friday.

RISK AREA I
Impact **MINOR**
Likelihood **LOW**

Source Coastal/Tidal
Likely duration 2 Days

Local minor coastal impacts possible around high tides on Thursday and Friday.

Assessment of flood risk

Rivers

The overall river flood risk is LOW from Wednesday to Thursday.

Minor river flooding impacts are probable for parts of north-east England on Wednesday and Thursday and are possible for North Yorkshire and the City of York on Friday.

Minor river flooding is probable for the lower parts of the River Severn on Wednesday and Thursday.

Other minor river flooding impacts are possible more widely across England and Wales from Tuesday until Thursday. This is a result of further rainfall falling on saturated river catchments.

Surface water

The surface water flood risk is LOW Tuesday to Thursday.

Minor surface water flooding impacts are probable in parts of the south of England, the Midlands and in south Wales later Tuesday to Wednesday, and also for parts of north-east England on Wednesday and Thursday. This is due to periods of heavy rain and showers falling onto already saturated ground.

Minor surface water flooding impacts are also possible elsewhere in England and Wales at times Tuesday to Thursday.

Groundwater

The groundwater flood risk is LOW for the next five days.

Minor groundwater flooding impacts are expected to continue in parts of North Lincolnshire during the next five days.

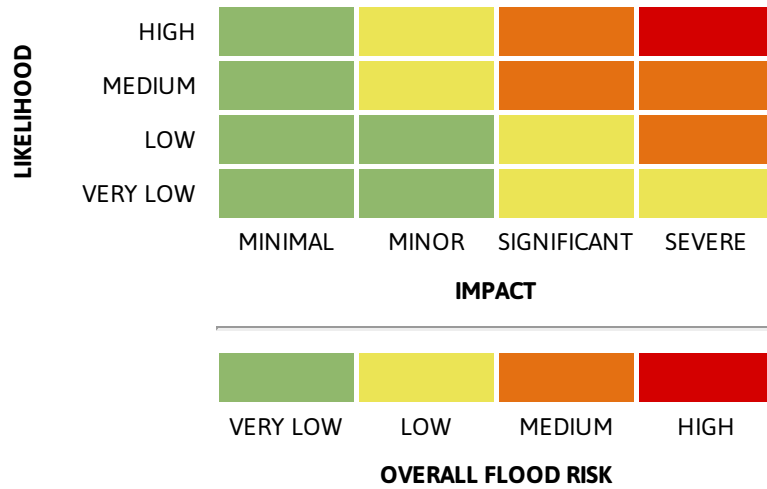

Coastal/Tidal

The coastal/tidal flood risk is VERY LOW.

Minor coastal flooding impacts are possible around the west and south coasts of England and Wales from late Tuesday into Wednesday, and along parts of the east coast of England from Wednesday through to Friday. This is primarily due to high tides. There may also be instances of wave and spray overtopping in places.

Flood risk matrix

Summary of potential impacts

MINIMAL

Isolated and minor flooding of low-lying land and roads
Isolated spray/wave on coastal promenades
Little or no disruption to travel, but wet road surfaces

MINOR

Localised flooding of land and roads
Flooding affecting individual properties
Disruption to travel and key sites in flood plans

SIGNIFICANT

Flooding affecting parts of communities
Possible danger to life and damage to buildings/structures
Disruption to travel and key sites in flood plans

SEVERE

Danger to life, severe disruption to travel
Widespread flooding affecting whole communities
Widespread disruption or loss of infrastructure
Large scale evacuation of properties possible

Next statement due **10:30hrs Tuesday 26 November 2019 (all times are local)**
