5 Jul 2020

Steady

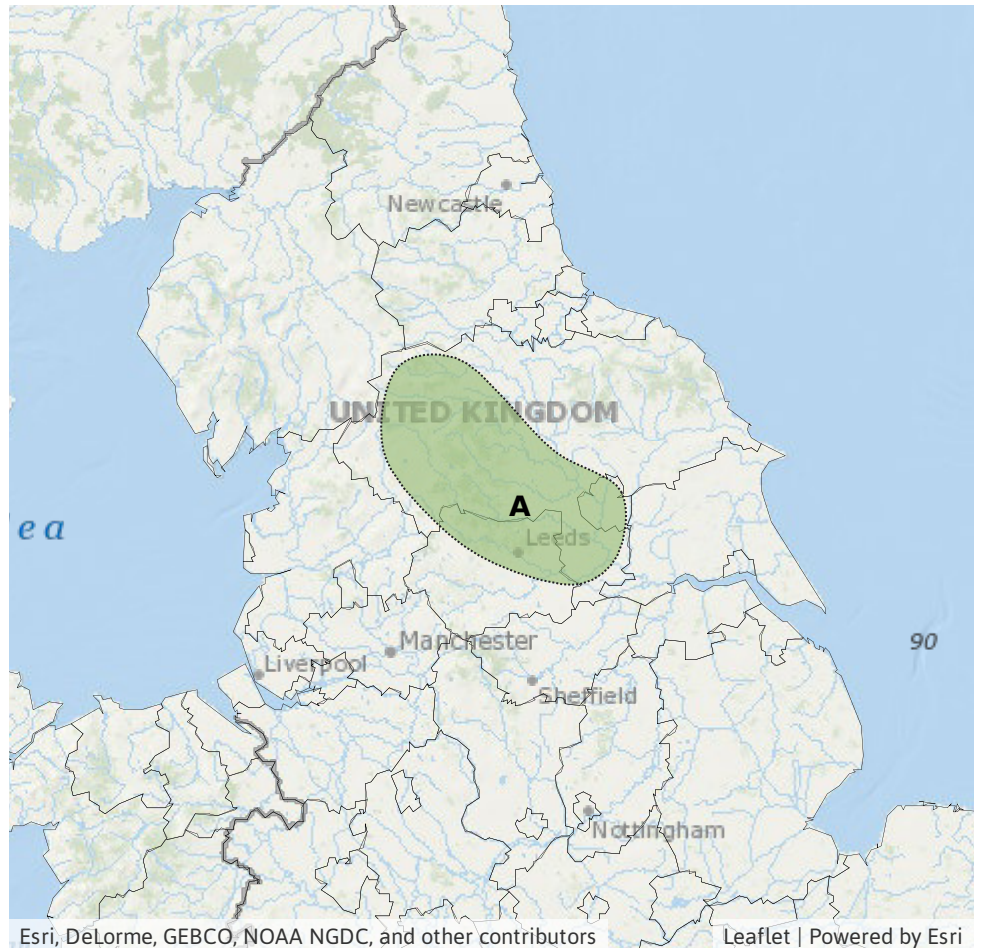

Minor river flooding impacts are possible across parts of Yorkshire on Friday and Saturday. The overall flood risk is VERY LOW.

Specific Areas of Concern Map 1: Friday 3 to Saturday 4 July 2020.

RISK AREA A
Impact **MINOR**
Likelihood **LOW**

Source River Surface
Likely duration 2 Days

Persistent and heavy rain on Friday and into Saturday morning.

Assessment of flood risk

Rivers

The river flood risk is VERY LOW.

Minor river flooding impacts are possible across parts of Yorkshire and are possible but not expected elsewhere across parts of the north of England and Wales later on Friday and into Saturday morning as persistent, heavy rain falls across these areas.

Surface water

The surface water flood risk is VERY LOW.

Minor surface water flooding impacts are possible but not expected across parts of south and central England on Thursday due to heavy thundery showers, and across parts of north Wales and the north of England later on Friday and into Saturday morning due to persistent heavy rain.

Coastal/Tidal

The coastal/tidal flood risk is VERY LOW for the next five days.

Groundwater

The groundwater flood risk is VERY LOW for the next five days.

Flood Guidance Statement

10:30hrs Wednesday 01 July 2020

Flood risk matrix

Summary of potential impacts

MINIMAL

Isolated and minor flooding of low-lying land and roads
Isolated spray/wave on coastal promenades
Little or no disruption to travel, but wet road surfaces

MINOR

Localised flooding of land and roads
Flooding affecting individual properties
Disruption to travel and key sites in flood plans

SIGNIFICANT

Flooding affecting parts of communities
Possible danger to life and damage to buildings/structures
Disruption to travel and key sites in flood plans

SEVERE

Danger to life, severe disruption to travel
Widespread flooding affecting whole communities
Widespread disruption or loss of infrastructure
Large scale evacuation of properties possible

Next statement due **10:30hrs Thursday 02 July 2020 (all times are local)**
