

Flood Guidance Statement

10:30hrs Tuesday 21 July 2020

FLOODFORECASTINGCENTRE

a working partnership between Environment Agency | Met Office

Tuesday

21 Jul 2020 10:30-23:59
Trend since last FGS

Steady

Wednesday

22 Jul 2020

Steady

Thursday

23 Jul 2020

Decreased

Friday

24 Jul 2020

Steady

Saturday

25 Jul 2020

Increased

Minor surface water and river flooding impacts are possible but not expected across England and Wales on Saturday. The overall flood risk is VERY LOW for the next five days.

Assessment of flood risk

Surface water

The surface water flood risk is VERY LOW for the next five days.

Minor surface water flooding impacts are possible but not expected due to the potential for heavy rain and showers across many parts of England and Wales on Saturday.

Rivers

The river flood risk is VERY LOW for the next five days.

Minor river flooding impacts are possible but not expected mainly in small and urban catchments. This is due to the potential for heavy rain and showers across many parts of England and Wales on Saturday.

Coastal/Tidal

The coastal/tidal flood risk is VERY LOW for the next five days.

Groundwater

The groundwater flood risk is VERY LOW for the next five days.

Flood risk matrix

Summary of potential impacts

MINIMAL

Isolated and minor flooding of low-lying land and roads
Isolated spray/wave on coastal promenades
Little or no disruption to travel, but wet road surfaces

MINOR

Localised flooding of land and roads
Flooding affecting individual properties
Disruption to travel and key sites in flood plans

SIGNIFICANT

Flooding affecting parts of communities
Possible danger to life and damage to buildings/structures
Disruption to travel and key sites in flood plans

SEVERE

Danger to life, severe disruption to travel
Widespread flooding affecting whole communities
Widespread disruption or loss of infrastructure
Large scale evacuation of properties possible
