Minor surface water and river flooding impacts are possible in parts of central, northern and north-east England today (Wednesday). The overall flood risk is VERY LOW.

Specific Areas of Concern Map 1: Wednesday 7 July 2021

Assessment of flood risk

Surface water

The surface water flood risk is VERY LOW for the next five days.

Localised minor surface water flooding impacts are possible in parts of central, northern and north-east England today (Wednesday). Minor impacts are also possible but not expected more widely across England and Wales today and in the south-east of England on Thursday.

Further minor impacts are possible but not expected across parts of England and Wales on Saturday and Sunday.

This is due to periods of heavy, slow-moving showers and thunderstorms.

Rivers

The river flood risk is VERY LOW for the next five days.

Localised minor river flooding impacts are possible in parts of central, northern and north-east England today (Wednesday). Minor impacts are also possible but not expected more widely across England and Wales today and in the south-east of England on Thursday. Small, fast responding and urban watercourses are most at risk.

Further minor impacts are possible but not expected across parts of England and Wales on Saturday and Sunday.

This is due to periods of heavy, slow-moving showers and thunderstorms.

Coastal/Tidal

The coastal/tidal flood risk is VERY LOW for the next five days.

Groundwater

The groundwater flood risk is VERY LOW for the next five days.

Flood risk matrix

Summary of potential impacts

MINIMAL

Isolated and minor flooding of low-lying land and roads
Isolated spray/wave on coastal promenades
Little or no disruption to travel, but wet road surfaces

MINOR

Localised flooding of land and roads
Flooding affecting individual properties
Disruption to travel and key sites in flood plans

SIGNIFICANT

Flooding affecting parts of communities
Possible danger to life and damage to buildings/structures
Disruption to travel and key sites in flood plans

SEVERE

Danger to life, severe disruption to travel
Widespread flooding affecting whole communities
Widespread disruption or loss of infrastructure
Large scale evacuation of properties possible
