Assessment of flood risk

Surface water

The surface water flood risk is LOW on Saturday and Sunday.

Over the weekend, heavy, thundery showers and some torrential downpours are likely across the southern half of England and Wales and significant surface water flooding impacts are possible. Properties may flood and there may be travel disruption.

Localised minor surface water impacts are possible more widely across England and Wales on Monday, Tuesday and Wednesday.

Rivers

The river flood risk is LOW on Saturday and Sunday.

Over the weekend, heavy, thundery showers and some torrential downpours are likely across the southern half of England and Wales and significant river flooding impacts are possible. Properties may flood and there may be travel disruption.

Localised minor river flooding impacts are possible more widely across England and Wales on Monday, Tuesday and Wednesday.

Small, urban and rapidly responding rivers are most prone throughout.

Coastal/Tidal

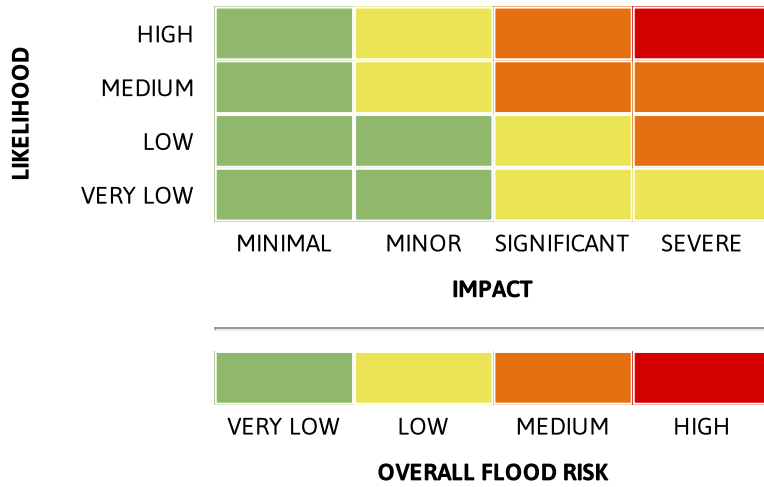

The coastal/tidal flood risk is VERY LOW for the next five days.

Groundwater

The groundwater flood risk is VERY LOW for the next five days.
