Increased ↑

Significant surface water and river flooding impacts are possible but not expected across the south-east of England today (Monday) and for parts of Wales and England on Tuesday and Wednesday. The overall flood risk is LOW.

## Specific Areas of Concern Map 1: Monday 26 July 2021

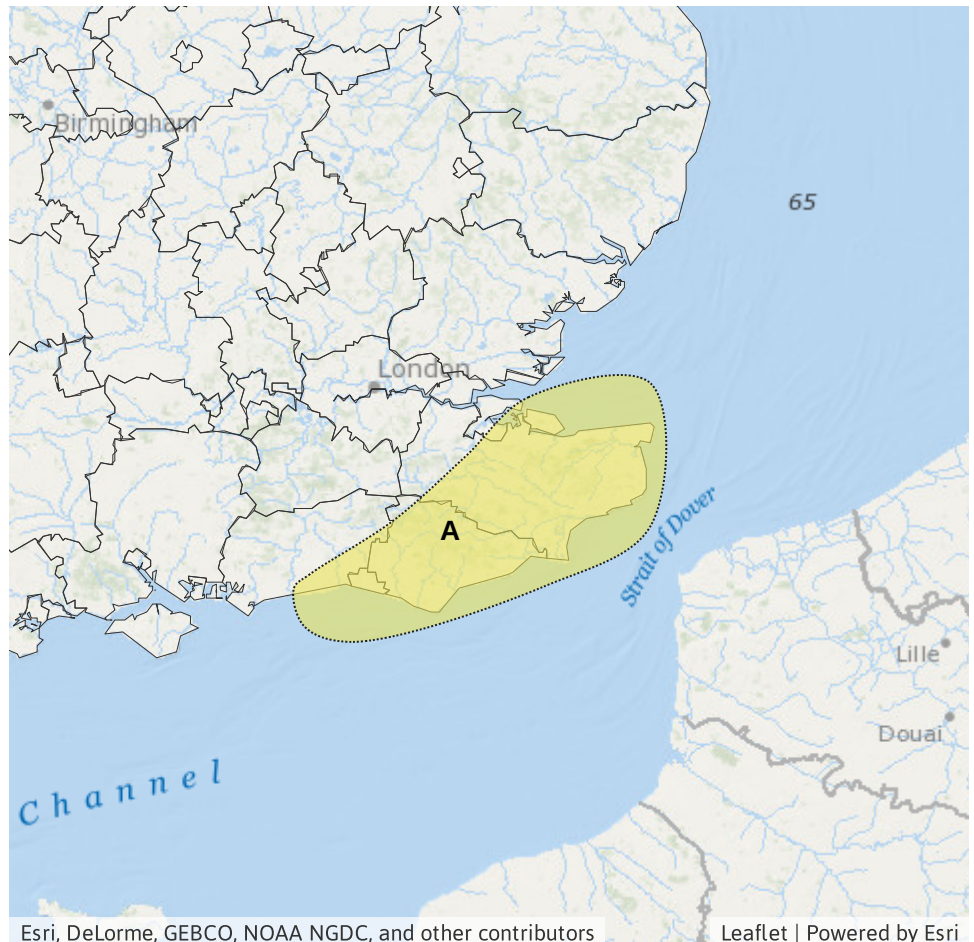

**RISK AREA A**

Impact **SIGNIFICANT**  
Likelihood **VERY LOW**

Source River Surface  
Likely duration 1 Day

Isolated torrential downpours possible this afternoon.

# Flood Guidance Statement

10:30hrs Monday 26 July 2021

### Specific Areas of Concern Map 2: Tuesday 27 and early Wednesday 28 July 2021

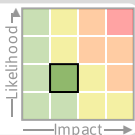

**RISK AREA B**  
Impact **SIGNIFICANT**  
Likelihood **VERY LOW**

Source River Surface  
Likely duration 2 Days

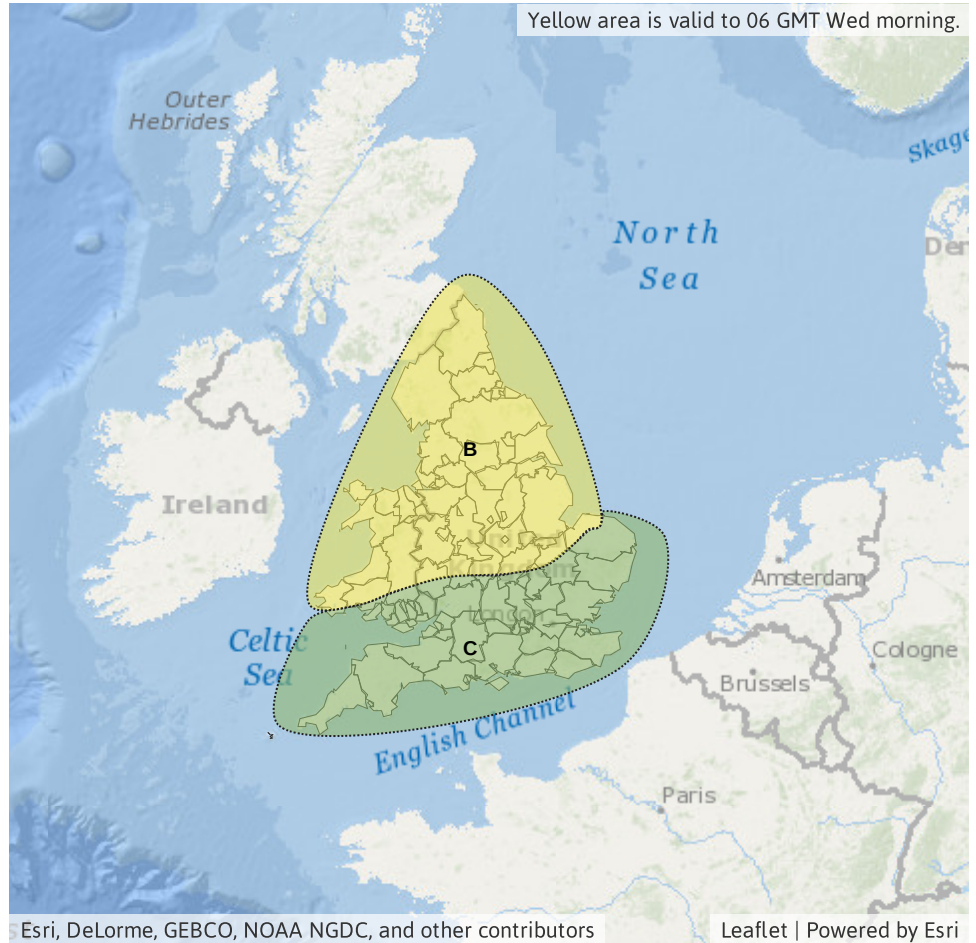

Slow-moving, heavy downpours possible during Tuesday and overnight.

**RISK AREA C**  
Impact **MINOR**  
Likelihood **LOW**

Source River Surface  
Likely duration 1 Day

Localised impacts possible from heavy showers.

### Specific Areas of Concern Map 3: Wednesday 28 July 2021

**RISK AREA D**  
Impact **MINOR**  
Likelihood **LOW**

Source River Surface  
Likely duration 1 Day

Localised impacts possible from heavy showers.

# Flood Guidance Statement

10:30hrs Monday 26 July 2021

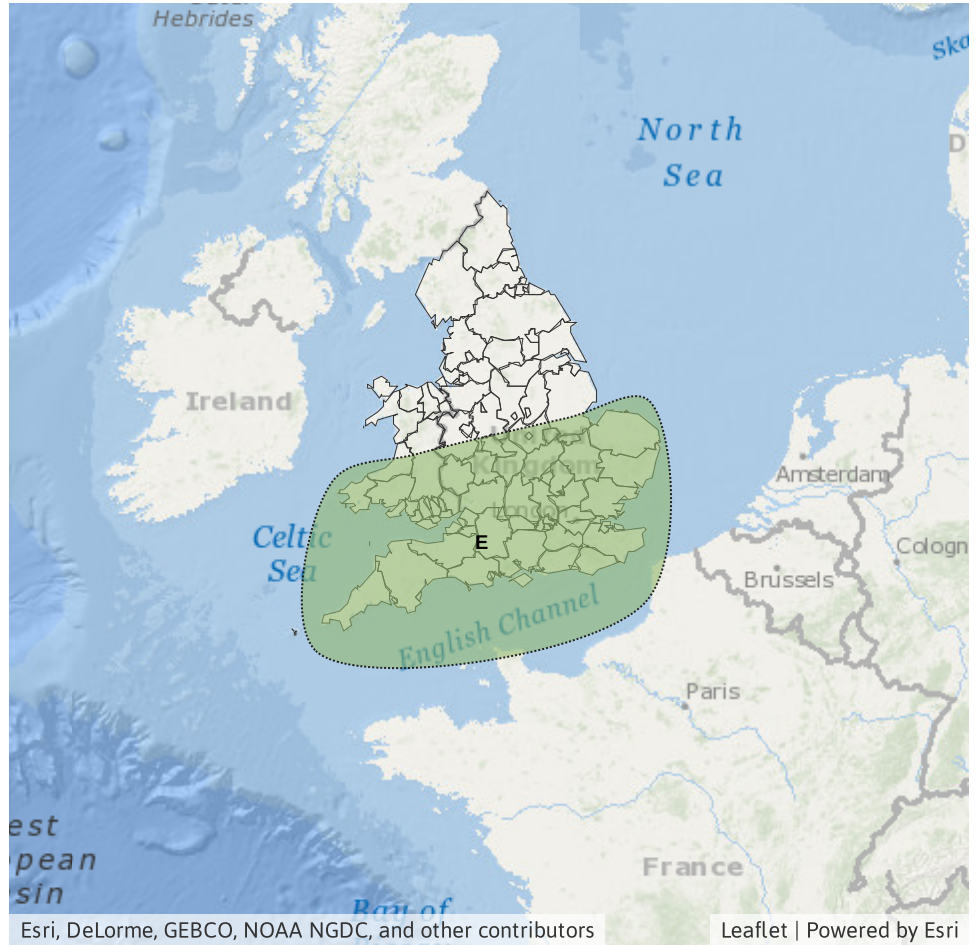

### Specific Areas of Concern Map 4: Thursday 29 and Friday 30 July 2021

**RISK AREA E**  
Impact **MINOR**  
Likelihood **LOW**

Source River Surface  
Likely duration 2 Days

Areas of heavy rain possibly resulting in localised flooding impacts.

## Assessment of flood risk

### Surface water

---

The surface water flood risk is LOW today, tomorrow and on Wednesday.

Isolated torrential downpours are possible across the south-east of England today and across parts of the north of Wales and the north of England on Tuesday and into the early hours of Wednesday. Significant surface water flooding impacts are possible but not expected. Properties may flood and there may be travel disruption.

Localised minor surface water impacts are also possible more widely across England and Wales throughout this week.

### Rivers

---

The river flood risk is LOW today, tomorrow and on Wednesday.

Isolated torrential downpours are possible across the south-east of England today and across parts of the north of Wales and the north of England on Tuesday and into the early hours of Wednesday. Significant river flooding impacts are possible but not expected. Properties may flood and there may be travel disruption.

Localised minor river flooding impacts are also possible but not expected in parts of Hampshire and the Isle of Wight today and are possible more widely across England and Wales throughout this week.

Small, urban and rapidly responding rivers are most prone throughout.

### Coastal/Tidal

---

The coastal/tidal flood risk is VERY LOW for the next five days.

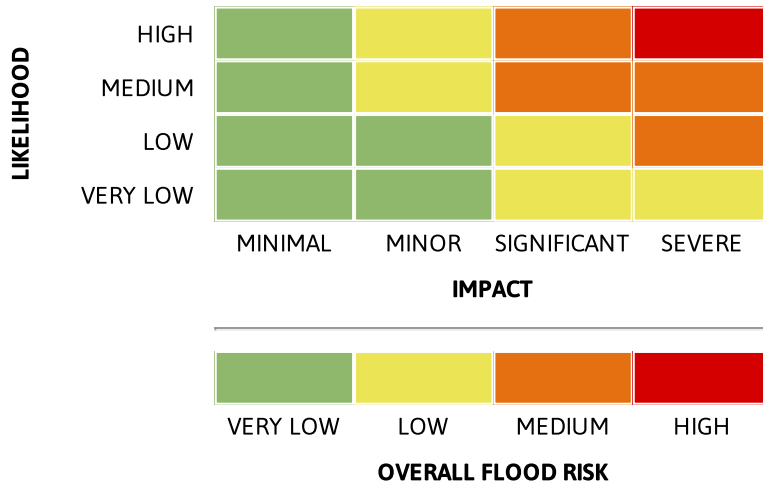

### Groundwater

---

The groundwater flood risk is VERY LOW for the next five days.

### Flood risk matrix

### Summary of potential impacts

#### MINIMAL

Isolated and minor flooding of low-lying land and roads  
Isolated spray/wave on coastal promenades  
Little or no disruption to travel, but wet road surfaces

#### MINOR

Localised flooding of land and roads  
Flooding affecting individual properties  
Disruption to travel and key sites in flood plans

#### SIGNIFICANT

Flooding affecting parts of communities  
Possible danger to life and damage to buildings/structures  
Disruption to travel and key sites in flood plans

#### SEVERE

Danger to life, severe disruption to travel  
Widespread flooding affecting whole communities  
Widespread disruption or loss of infrastructure  
Large scale evacuation of properties possible

Next statement due **10:30hrs Tuesday 27 July 2021 (all times are local)**
