Significant inland flooding impacts are possible but not expected on Saturday. Minor inland flooding impacts are probable on Sunday and possible on Monday. The overall flood risk is LOW.

## Specific Areas of Concern Map 1: Saturday 7 August 2021

**RISK AREA A**  
Impact **SIGNIFICANT**  
Likelihood **VERY LOW**

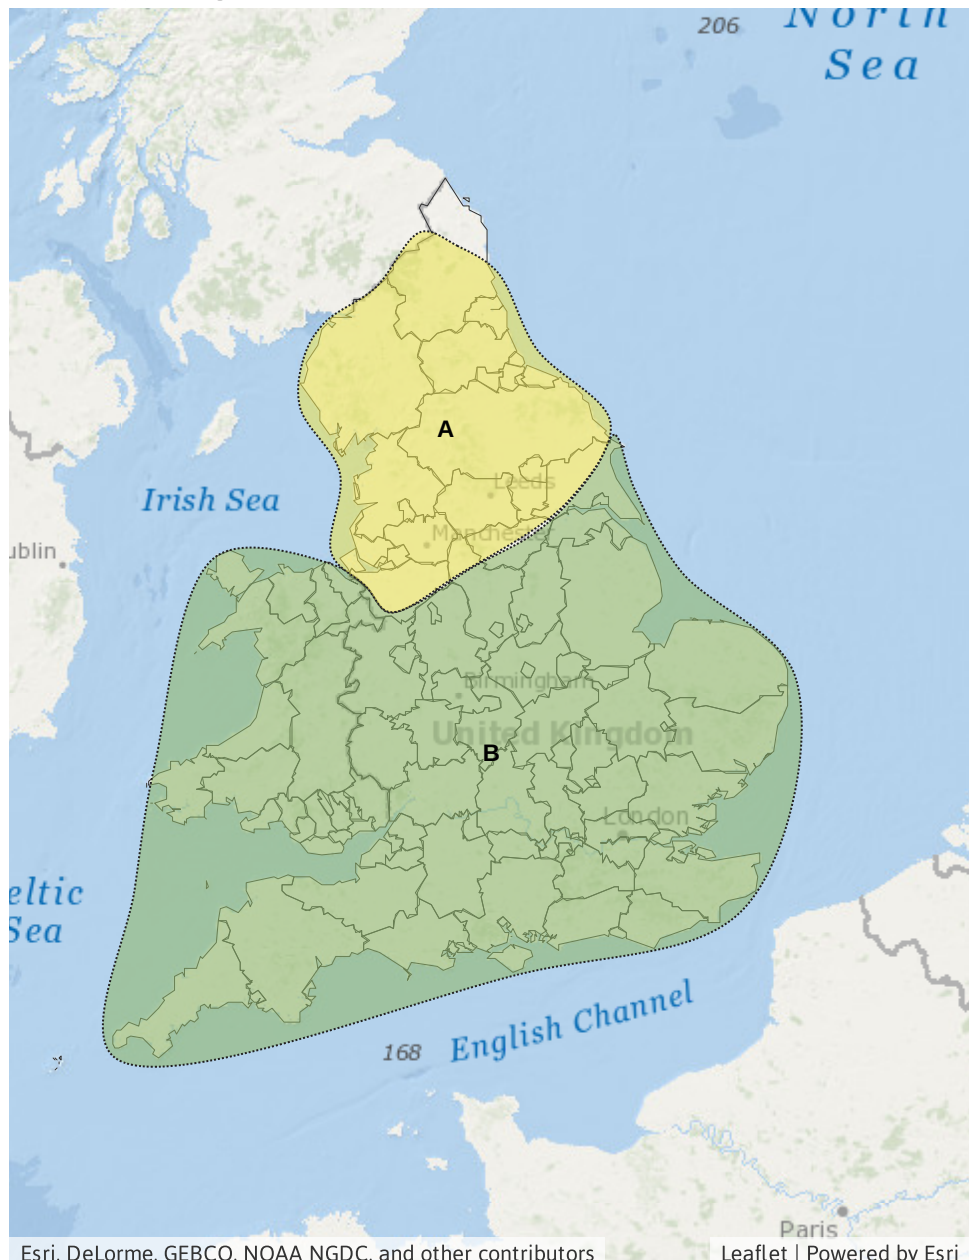

Source River Surface  
Likely duration 1 Day

Heavy showers merging into longer spells of rain.

**RISK AREA B**  
Impact **MINOR**  
Likelihood **LOW**

Source River Surface  
Likely duration 1 Day

Heavy showers merging into longer spells of rain.

# Flood Guidance Statement

10:30hrs Saturday 07 August 2021

### Specific Areas of Concern Map 2: Sunday 8 August 2021

#### RISK AREA C

Impact **MINOR**

Likelihood **MEDIUM**

Source River Surface

Likely duration 1 Day

Heavy showers bring potential for impacts.

#### RISK AREA D

Impact **MINOR**

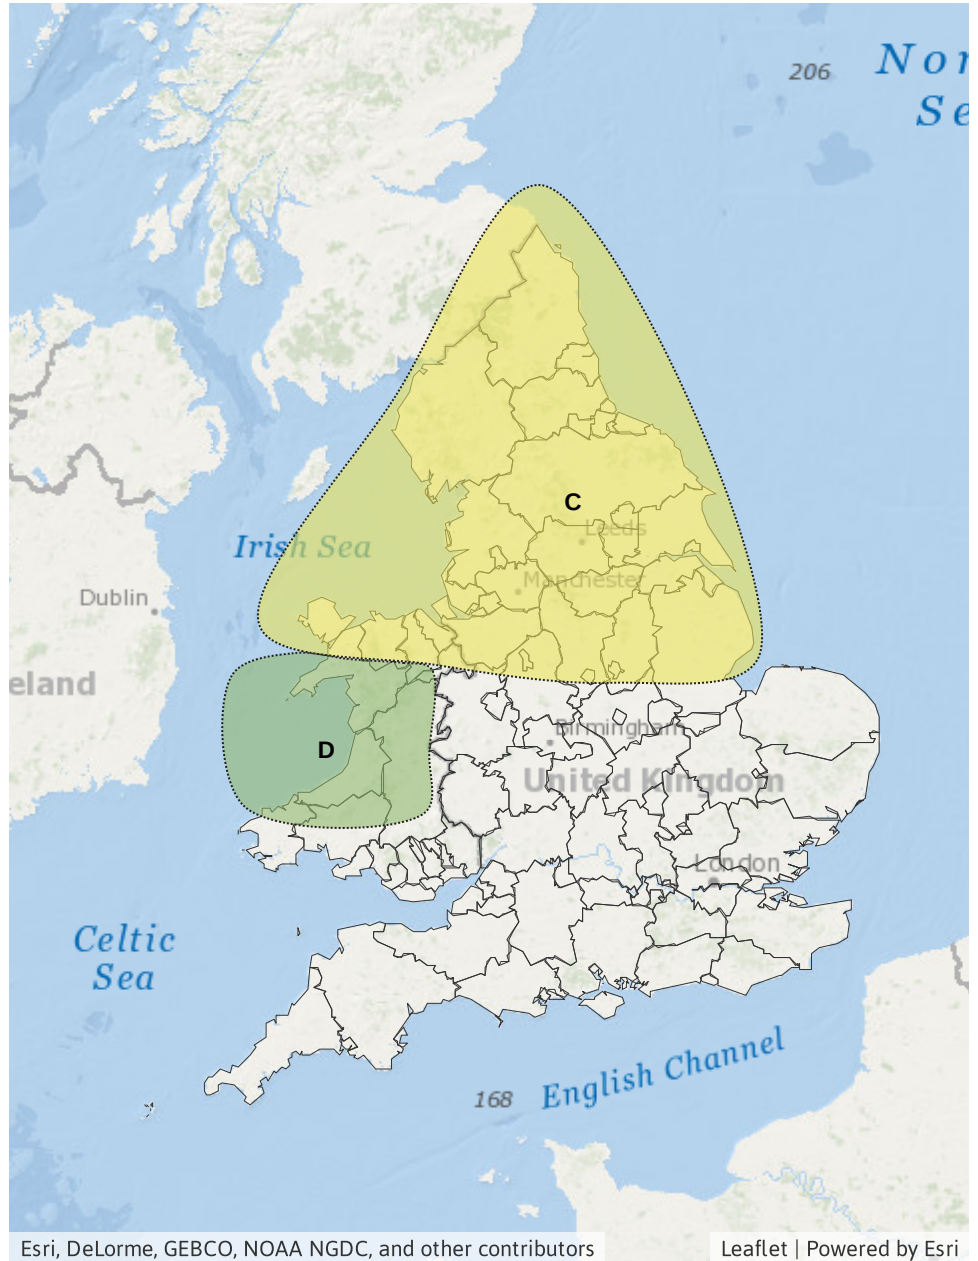

Likelihood **LOW**

Source River Surface

Likely duration 1 Day

Heavy showers bring potential for impacts.

# Flood Guidance Statement

10:30hrs Saturday 07 August 2021

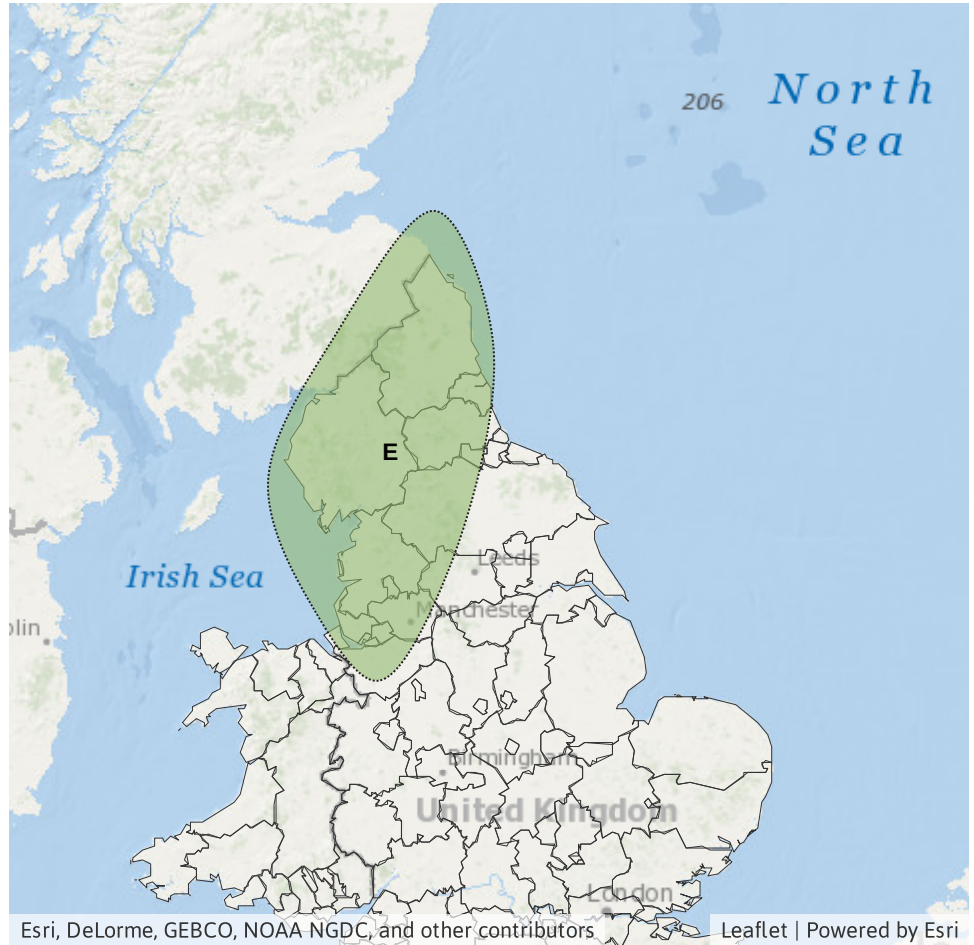

### Specific Areas of Concern Map 3: Monday 9 August 2021

**RISK AREA E**  
Impact **MINOR**  
Likelihood **LOW**

Source River Surface  
Likely duration 1 Day

Heavy showers bring potential for impacts.

## Assessment of flood risk

### Surface water

---

The surface water flood risk is LOW on Saturday and Sunday.

Significant surface water flooding impacts are possible but not expected today (Saturday) in the north of England. Minor surface water flooding impacts are also possible elsewhere across England and Wales. This is due to heavy, thundery showers, which could merge into longer periods of heavy rain.

Local minor surface water flooding impacts are probable in parts of England and Wales on Sunday and possible in parts of northern England on Monday due to the continued risk of heavy, perhaps thundery showers.

### Rivers

---

The river flood risk is LOW on Saturday and Sunday.

Significant river flooding impacts are possible but not expected today (Saturday) in the north of England. Minor river flooding impacts are also possible elsewhere across England and Wales. This is due to heavy, thundery showers, which could merge into longer periods of heavy rain. River flooding impacts are restricted to small urban fast responding water courses.

Local minor river flooding impacts are probable in small urban fast responding water courses in parts of England and Wales on Sunday and possible in parts of northern England on Monday due to the continued risk of heavy, perhaps thundery showers.

### Coastal/Tidal

---

The coastal/tidal flood risk is VERY LOW for the next five days.

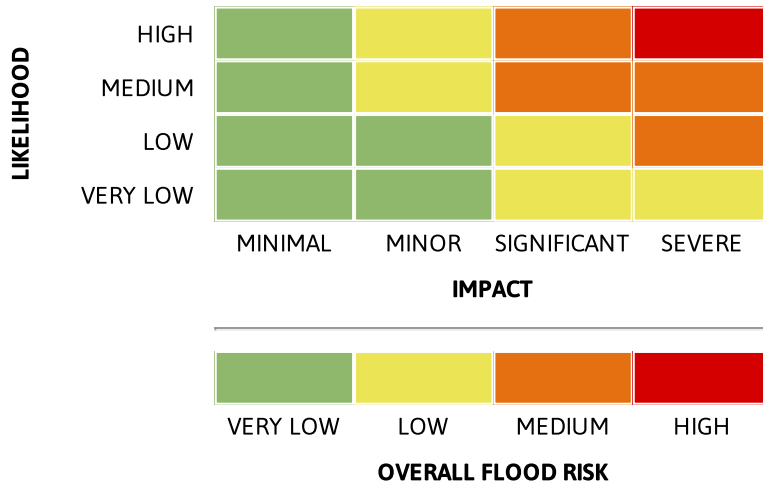

### Groundwater

---

The groundwater flood risk is VERY LOW for the next five days.

### Flood risk matrix

### Summary of potential impacts

**MINIMAL**

Isolated and minor flooding of low-lying land and roads  
Isolated spray/wave on coastal promenades  
Little or no disruption to travel, but wet road surfaces

**MINOR**

Localised flooding of land and roads  
Flooding affecting individual properties  
Disruption to travel and key sites in flood plans

**SIGNIFICANT**

Flooding affecting parts of communities  
Possible danger to life and damage to buildings/structures  
Disruption to travel and key sites in flood plans

**SEVERE**

Danger to life, severe disruption to travel  
Widespread flooding affecting whole communities  
Widespread disruption or loss of infrastructure  
Large scale evacuation of properties possible

Next statement due **10:30hrs Sunday 08 August 2021 (all times are local)**
