4 Oct 2021

Steady

Minor inland flood impacts are possible on Saturday and Sunday across England and Wales and are possible but not expected today (Thursday) and tomorrow (Friday). The overall flood risk is VERY LOW for the next five days.

### Specific Area of Concern Map 1: Saturday 2 and Sunday 3 October 2021

## Assessment of flood risk

### Rivers

---

The river flood risk is VERY LOW for the next five days.

Localised minor river flooding impacts are possible but not expected on Thursday (today) and Friday (tomorrow) across parts of England and Wales, and are possible on Saturday as catchments respond to repeated bands of heavy rain. Slower responding rivers may continue to see minor impacts during Sunday. See Specific Area of Concern Map for details.

### Surface water

---

The surface water flood risk is VERY LOW for the next five days.

Localised minor surface water flooding impacts are possible but not expected on Thursday (today) and Friday (tomorrow) across parts of England and Wales, and are possible more widely on Saturday. This is due to repeated bands of heavy rain crossing the country. See Specific Area of Concern Map for details.

### Coastal/Tidal

---

The coastal/tidal flood risk is VERY LOW for the next five days despite the potential for strong winds and large waves for some coasts over the weekend.

### Groundwater

---

The groundwater flood risk is VERY LOW for the next five days.

### Flood risk matrix

### Summary of potential impacts

#### MINIMAL

Isolated and minor flooding of low-lying land and roads  
Isolated spray/wave on coastal promenades  
Little or no disruption to travel, but wet road surfaces

#### MINOR

Localised flooding of land and roads  
Flooding affecting individual properties  
Disruption to travel and key sites in flood plans

#### SIGNIFICANT

Flooding affecting parts of communities  
Possible danger to life and damage to buildings/structures  
Disruption to travel and key sites in flood plans

#### SEVERE

Danger to life, severe disruption to travel  
Widespread flooding affecting whole communities  
Widespread disruption or loss of infrastructure  
Large scale evacuation of properties possible
