Significant river flooding is expected today (Tuesday) and tomorrow on parts of the River Severn and is possible but not expected in parts of the north of England and Wales. Minor river flooding probable more widely. The overall flood risk is **MEDIUM**.

## Specific Areas of Concern Map 1: Tuesday 22 and Wednesday 23 February 2022

### RISK AREA A

Impact **SIGNIFICANT**  
Likelihood **HIGH**

Source River  
Likely duration 2 Days

Significant river flooding expected on the middle River Severn until Wednesday.

### RISK AREA B

Impact **SIGNIFICANT**  
Likelihood **VERY LOW**

Source River  
Likely duration 2 Days

Potential significant river flooding impacts on lower River Wye until Wednesday.

### RISK AREA C

Impact **MINOR**  
Likelihood **MEDIUM**

Source River  
Likely duration 2 Days

Minor river impacts probable. Impacts lasting longest on the River Severn.

### RISK AREA D

Impact **SIGNIFICANT**  
Likelihood **VERY LOW**

Source River  
Likely duration 2 Days

Significant river flooding possible today and on the River Aire into Wednesday

### RISK AREA E

Impact **MINOR**  
Likelihood **MEDIUM**

Source River  
Likely duration 2 Days

On-going minor river flooding impacts probable including lower Rivers Aire & Ouse.

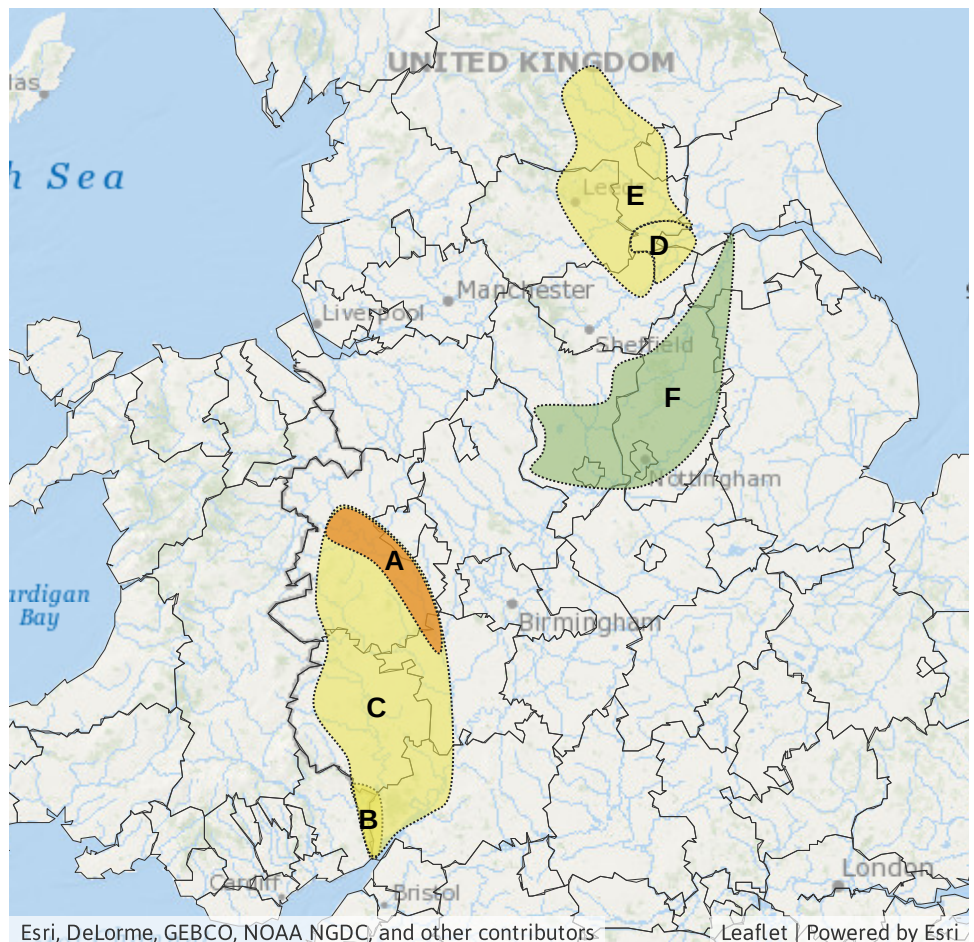

### RISK AREA F

Impact **MINOR**  
Likelihood **LOW**

Source River  
Likely duration 2 Days

Possible ongoing minor river impacts. River Trent responding all week.

# Flood Guidance Statement

15:30hrs Tuesday 22 February 2022

### Specific Areas of Concern Map 2: Thursday 24 and Friday 25 February 2022

#### RISK AREA G

Impact **MINOR**  
Likelihood **LOW**

Source River  
Likely duration 2 Days

Ongoing river impacts possible on larger, slower responding rivers until Friday.

#### RISK AREA H

Impact **MINOR**  
Likelihood **LOW**

Source River  
Likely duration 2 Days

Ongoing impacts possible on slower responding rivers including the Trent.

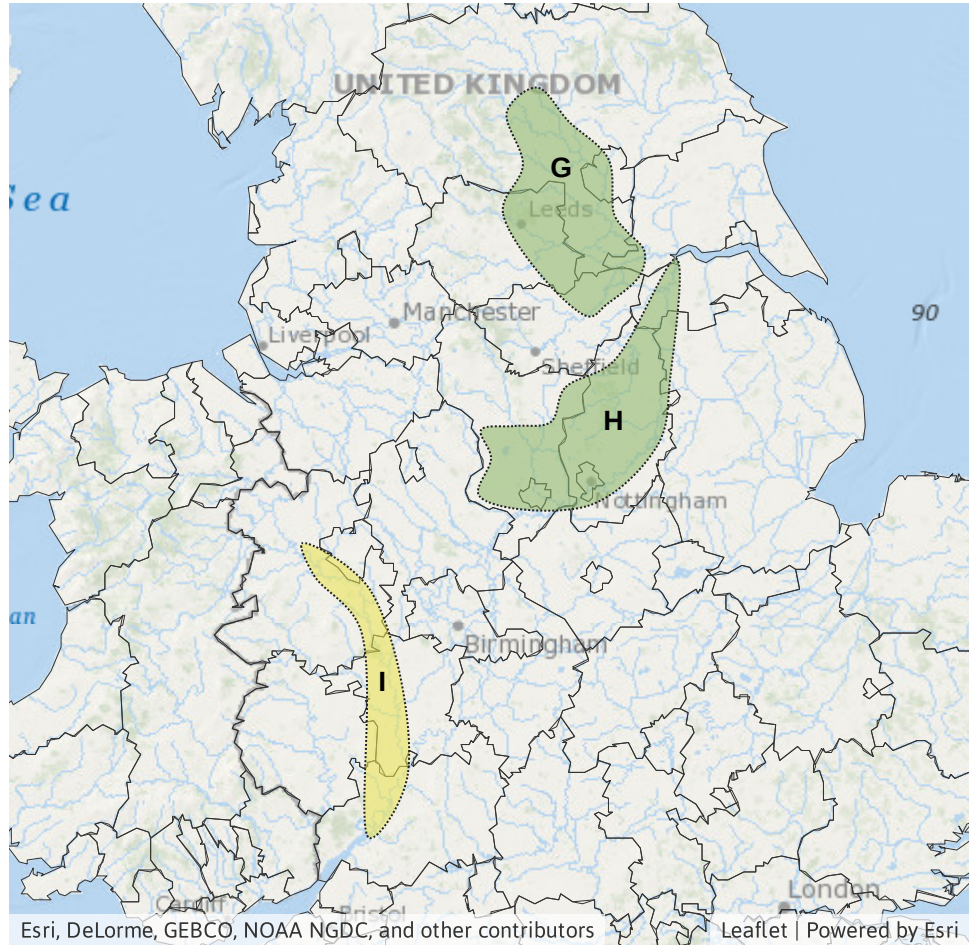

#### RISK AREA I

Impact **MINOR**  
Likelihood **MEDIUM**

Source River  
Likely duration 2 Days

Minor impacts will probably continue on the River Severn until Friday.

## Assessment of flood risk

### Rivers

---

The river flood risk is MEDIUM today (Tuesday) and tomorrow and LOW on Thursday and Friday.

Persistent, heavy rain on Sunday has caused widespread river response. Significant river flooding impacts are expected until Wednesday along parts of the River Severn. Additional river flood risk elsewhere. See Specific Areas of Concern Maps for details.

The largest, slowest responding rivers will continue to bring a risk of river flooding impacts until Friday.

### Coastal/Tidal

---

The coastal/tidal flood risk is VERY LOW for the next five days.

### Surface water

---

The surface water flood risk is VERY LOW for the next five days.

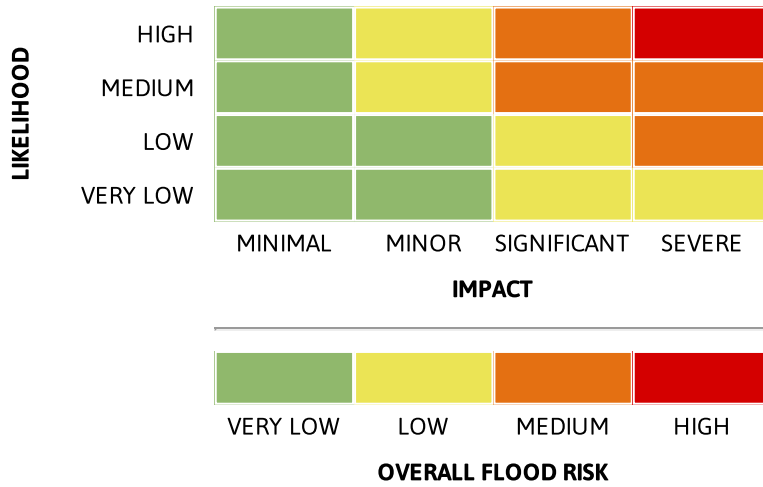

### Groundwater

---

The groundwater flood risk is VERY LOW for the next five days.

### Flood risk matrix

### Summary of potential impacts

#### MINIMAL

Isolated and minor flooding of low-lying land and roads  
Isolated spray/wave on coastal promenades  
Little or no disruption to travel, but wet road surfaces

#### MINOR

Localised flooding of land and roads  
Flooding affecting individual properties  
Disruption to travel and key sites in flood plans

#### SIGNIFICANT

Flooding affecting parts of communities  
Possible danger to life and damage to buildings/structures  
Disruption to travel and key sites in flood plans

#### SEVERE

Danger to life, severe disruption to travel  
Widespread flooding affecting whole communities  
Widespread disruption or loss of infrastructure  
Large scale evacuation of properties possible

Next statement due **10:30hrs Wednesday 23 February 2022 (all times are local)**
