Steady

Minor inland flooding impacts are possible but not expected in parts of England and Wales on Sunday, Tuesday and Wednesday. The overall flood risk for England and Wales for the next five days is VERY LOW.

## Assessment of flood risk

### Rivers

The river flood risk is VERY LOW for the next five days.

Isolated minor river flooding impacts are possible but not expected in parts of the south and south-west of England on Sunday and in parts of Wales and the north of England on Tuesday and Wednesday. This is due to the potential for some widespread heavy rain during these periods.

### Surface water

The surface water flood risk is VERY LOW for the next five days.

Isolated minor surface water flooding impacts are possible but not expected in parts of the south and south-west of England on Sunday and in parts of Wales and the north of England on Tuesday and Wednesday. This is due to the potential for some widespread heavy rain during these periods.

### Coastal/Tidal

The coastal/tidal flood risk is VERY LOW for the next five days.

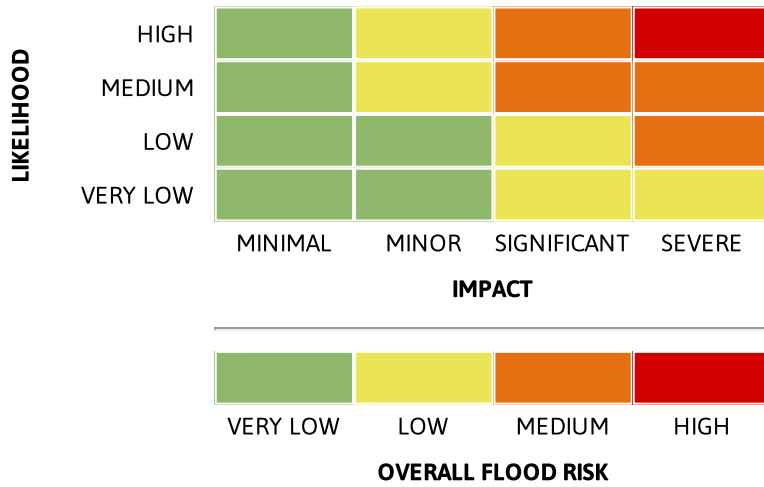

### Groundwater

The groundwater flood risk is VERY LOW for the next five days.

# Flood Guidance Statement

10:30hrs Sunday 02 October 2022

## Flood risk matrix

## Summary of potential impacts

### MINIMAL

Isolated and minor flooding of low-lying land and roads  
Isolated spray/wave on coastal promenades  
Little or no disruption to travel, but wet road surfaces

### MINOR

Localised flooding of land and roads  
Flooding affecting individual properties  
Disruption to travel and key sites in flood plans

### SIGNIFICANT

Flooding affecting parts of communities  
Possible danger to life and damage to buildings/structures  
Disruption to travel and key sites in flood plans

### SEVERE

Danger to life, severe disruption to travel  
Widespread flooding affecting whole communities  
Widespread disruption or loss of infrastructure  
Large scale evacuation of properties possible
