Steady

Minor coastal/tidal flood impacts are possible but not expected for parts of the north-west coast of England on Wednesday, Thursday and Friday. The overall flood risk across England and Wales is VERY LOW for the next five days.

Assessment of flood risk

Coastal/Tidal

The coastal/tidal flood risk is VERY LOW for the next five days.

Minor coastal/tidal flood impacts are possible but not expected for parts of the north-west coast of England during today (Wednesday), Thursday and Friday as unsettled weather coincides with spring tides.

Surface water

The surface water flood risk is VERY LOW for the next five days.

Rivers

The river flood risk is VERY LOW for the next five days.

Groundwater

The groundwater flood risk is VERY LOW for the next five days.

Flood Guidance Statement

10:30hrs Wednesday 26 October 2022

Flood risk matrix

Summary of potential impacts
