Minor surface water flooding is probable in parts of the South East and East of England on Thursday. The overall flood risk across England and Wales is LOW.

## Areas of Concern Map 1: Thursday 03 and Friday 04 November

**RISK AREA A**  
Impact **MINOR**  
Likelihood **MEDIUM**

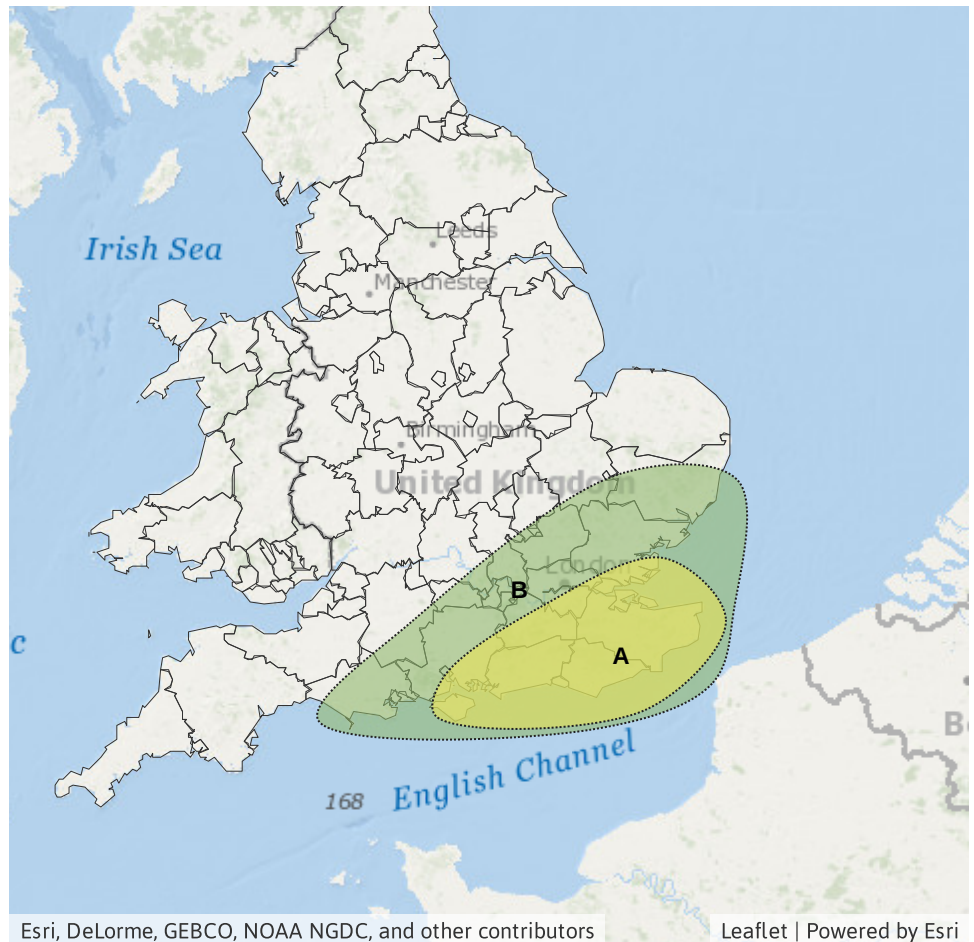

Source Surface  
Likely duration 1 Day

Surface Water Thursday only.

**RISK AREA B**  
Impact **MINOR**  
Likelihood **LOW**

Source River Surface  
Likely duration 2 Days

Surface Water Thursday only. Rivers Thursday & Friday.

## Assessment of flood risk

### Surface water

---

The overall surface water flood risk is **LOW** on Thursday.

Minor surface water flooding is probable in parts of the South East and East of England on Thursday and is possible more widely. See Areas of Concern Map 1.

This is due to a spell of persistent heavy rain. Impacts could include localised flooding from urban and fast responding smaller watercourses/catchments, drains, channels and flooding from overland flow.

Local minor surface water impacts are then possible but not expected early on Friday for coastal fringes of the South East of England, due to the potential for heavy showers.

### Rivers

---

The river flood risk is **VERY LOW** for the next five days.

Localised minor river flooding is possible on Thursday and Friday in parts of the East and South East of England. See Areas of Concern Map 1. This is due to a spell of persistent heavy rain on Thursday.

### Coastal/Tidal

---

The coastal/tidal flood risk is **VERY LOW** for the next five days.

### Groundwater

---

The groundwater flood risk is **VERY LOW** for the next five days.

# Flood Guidance Statement

10:30hrs Wednesday 02 November 2022

## Flood risk matrix

## Summary of potential impacts

### MINIMAL

Isolated and minor flooding of low-lying land and roads  
Isolated spray/wave on coastal promenades  
Little or no disruption to travel, but wet road surfaces

### MINOR

Localised flooding of land and roads  
Flooding affecting individual properties  
Disruption to travel and key sites in flood plans

### SIGNIFICANT

Flooding affecting parts of communities  
Possible danger to life and damage to buildings/structures  
Disruption to travel and key sites in flood plans

### SEVERE

Danger to life, severe disruption to travel  
Widespread flooding affecting whole communities  
Widespread disruption or loss of infrastructure  
Large scale evacuation of properties possible

Next statement due **10:30hrs Thursday 03 November 2022 (all times are local)**
