Steady

Tuesday

28 Feb 2023

Steady

Local minor coastal flooding impacts are possible along parts of the North East and Yorkshire and the Humber coasts today (Friday). The overall flood risk is VERY LOW.

Specific Areas of Concern Map 1: Friday 24 February 2023.

RISK AREA A
Impact **MINOR**
Likelihood **LOW**

Source Coastal/Tidal
Likely duration 1 Day

Friday evening high tide only

Assessment of flood risk

Coastal/Tidal

The coastal/tidal flood risk is VERY LOW for the next five days.

Local minor coastal flooding impacts are possible along parts of the North East, Yorkshire and the Humber coasts today (Friday), see Specific Area of Concern Map 1.

Local minor coastal flooding impacts are possible but not expected along parts of the coast of the East Midlands and East of England today (Friday) and more widely along the coast of the east of England from Yorkshire to Essex on Saturday morning. This is due to high tides, large waves and storm surge at times.

Surface water

The surface water flood risk is VERY LOW for the next five days.

Rivers

The river flood risk is VERY LOW for the next five days.

Groundwater

The groundwater flood risk is VERY LOW for the next five days.

Flood Guidance Statement

10:30hrs Friday 24 February 2023

Flood risk matrix

Summary of potential impacts

MINIMAL

Isolated and minor flooding of low-lying land and roads
Isolated spray/wave on coastal promenades
Little or no disruption to travel, but wet road surfaces

MINOR

Localised flooding of land and roads
Flooding affecting individual properties
Disruption to travel and key sites in flood plans

SIGNIFICANT

Flooding affecting parts of communities
Possible danger to life and damage to buildings/structures
Disruption to travel and key sites in flood plans

SEVERE

Danger to life, severe disruption to travel
Widespread flooding affecting whole communities
Widespread disruption or loss of infrastructure
Large scale evacuation of properties possible

Next statement due **10:30hrs Saturday 25 February 2023 (all times are local)**
