Minor coastal flooding impacts are possible for parts of Wales and the west coast of England on Saturday into early Sunday. Minor coastal impacts are possible but not expected more widely on Saturday, Sunday and Monday. The overall flood risk is LOW.

Specific Areas of Concern Map 1 - Saturday 30 Sept and Sunday 1 Oct 2023

RISK AREA A

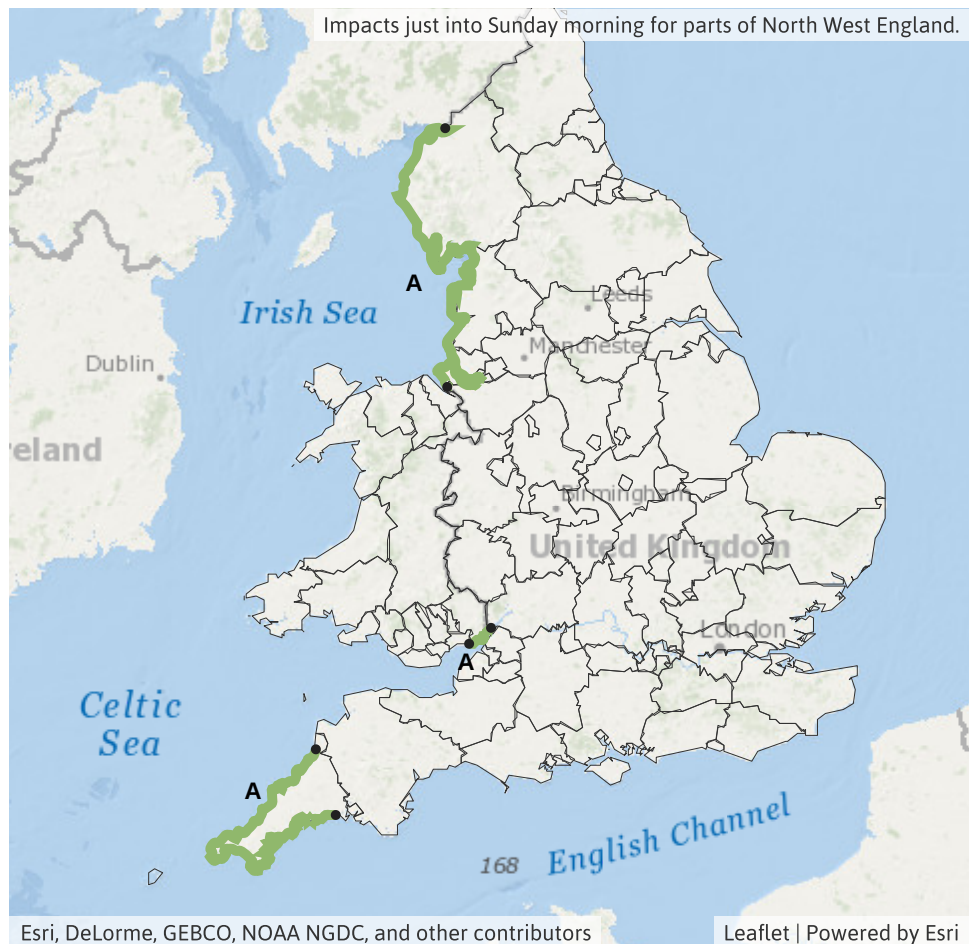

Impact **MINOR**

Likelihood **LOW**

Source Coastal/Tidal
Likely duration 1 Day

High tide and unsettled conditions during Saturday evening into early Sunday morning.

Assessment of flood risk

Coastal/Tidal

The coastal flood risk is VERY LOW for the next five days.

Minor coastal flooding impacts are possible for South East Wales, North West England, Cornwall and the River Wye estuary in Gloucestershire on Saturday. Impacts possibly into early hours of Sunday in parts of North West England. See Specific Areas of Concern Map.

Minor impacts are also possible but not expected for parts of the Wales, North West and South West England coasts on Saturday and Sunday, the East coast on Saturday and the North East of England coast on Monday morning. This is mainly due to high tide levels coinciding with some waves and storm surge.

Rivers

The river flood risk is VERY LOW for the next five days.

Surface water

The surface water flood risk is VERY LOW for the next five days.

Groundwater

The groundwater flood risk is VERY LOW for the next five days.

Flood Guidance Statement

10:30hrs Friday 29 September 2023

Flood risk matrix

Summary of potential impacts

MINIMAL

Isolated and minor flooding of low-lying land and roads
Isolated spray/wave on coastal promenades
Little or no disruption to travel, but wet road surfaces

MINOR

Localised flooding of land and roads
Flooding affecting individual properties
Disruption to travel and key sites in flood plans

SIGNIFICANT

Flooding affecting parts of communities
Possible danger to life and damage to buildings/structures
Disruption to travel and key sites in flood plans

SEVERE

Danger to life, severe disruption to travel
Widespread flooding affecting whole communities
Widespread disruption or loss of infrastructure
Large scale evacuation of properties possible
