

Minor surface water flooding impacts are possible across parts of northern England today (Saturday). The overall flood risk for England and Wales is VERY LOW for the next five days.

Specific Areas of Concern Map 1 - Saturday 15 June 2024

Assessment of flood risk

Surface water

The surface water flood risk is VERY LOW for the next five days.

Minor surface water flooding impacts are possible across parts of northern England today (Saturday) due to heavy and potentially thundery showers.

Impacts could include localised flooding from urban and fast responding smaller watercourses/catchments, drains, channels and flooding from overland flow.

The river flood risk is VERY LOW for the next five days.

The coastal/tidal flood risk is VERY LOW for the next five days.

The groundwater flood risk is VERY LOW for the next five days.

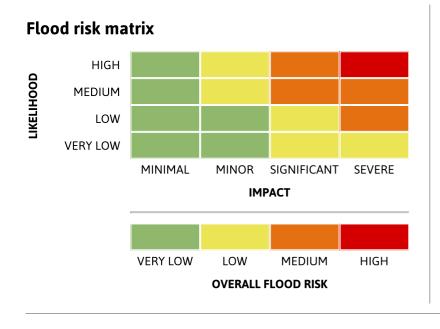

Flood Guidance Statement
