Increased

Minor inland flooding impacts are possible in parts of Wales from Wednesday to Saturday and in parts of England on Friday and Saturday. Minor groundwater flooding is possible in parts of the South of England for the next five days. The overall flood risk is LOW.

Specific Areas of Concern Map 1 - Wednesday 4 and Thursday 5 December 2024

RISK AREA A
Impact **MINOR**
Likelihood **LOW**

Source River Surface
Likely duration 2 Days

Risk of inland flooding impacts due to heavy rain.

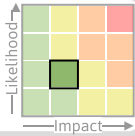

Flood Guidance Statement

10:30hrs Tuesday 03 December 2024

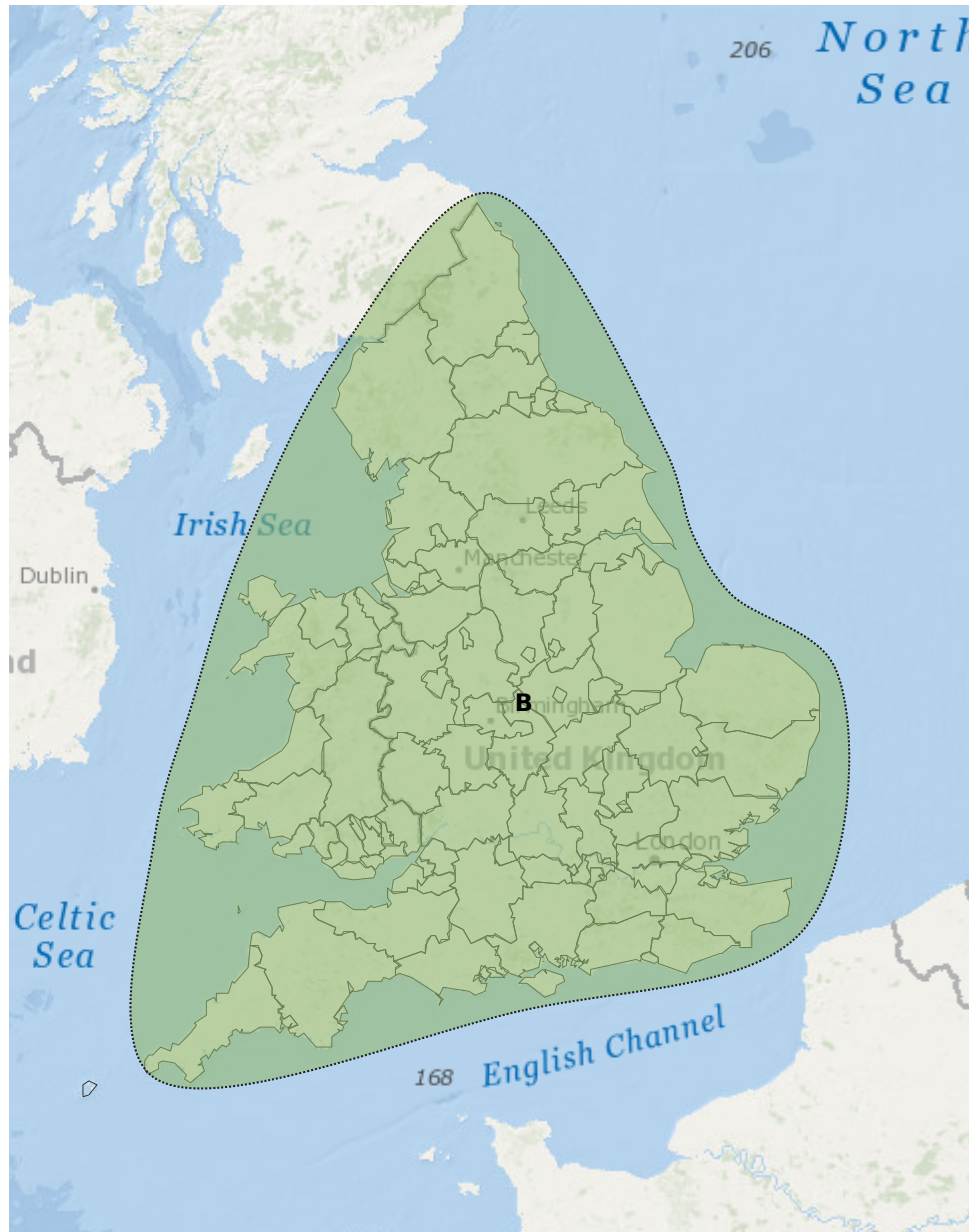

Specific Areas of Concern Map 2 - Friday 6 and Saturday 7 December 2024

RISK AREA B
Impact **MINOR**
Likelihood **LOW**

Source River Surface
Likely duration 2 Days

Heavy and persistent rainfall falling on some sensitive areas.

Specific Areas of Concern Map 3 - Tuesday 3 to Saturday 7 December 2024

RISK AREA C
Impact **MINOR**
Likelihood **LOW**

Source Ground
Likely duration 5 + Days

Localised groundwater flooding impacts

Assessment of flood risk

Rivers

The river flood risk is VERY LOW.

Minor river flooding is possible in Wales and possible but not expected in other parts of Wales and parts of England on Wednesday and Thursday, due to heavy rain at times.

Minor river flooding is possible across parts of England and Wales on Friday and Saturday. This is due to the potential for heavy and persistent rainfall.

See Specific Areas of Concern Maps.

Surface water

The surface water flood risk is VERY LOW.

Minor surface water flooding is possible in Wales and possible but not expected in other parts of Wales and parts of England on Wednesday and Thursday, due to heavy rain at times.

Minor surface water flooding is possible across parts of England and Wales on Friday and Saturday. This is due to the potential for heavy and persistent rainfall.

See Specific Areas of Concern Maps.

Impacts could include localised flooding from urban and fast responding smaller watercourses/catchments, drains, channels and flooding from overland flow.

Groundwater

The groundwater flood risk is VERY LOW for the next five days.

Minor groundwater flooding impacts are possible in parts of Dorset, Wiltshire and Hampshire for the next five days due to rising groundwater levels from recent heavy rainfall. See Specific Areas of Concern Map.

Coastal/Tidal

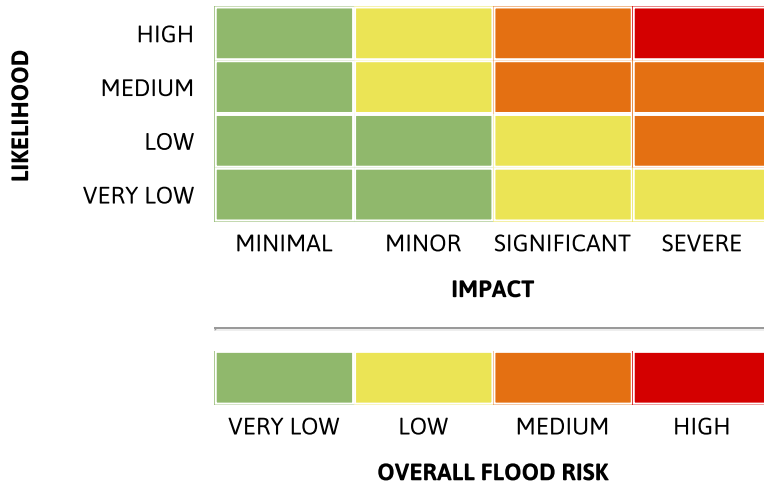

The coastal/tidal flood risk is VERY LOW for the next five days.

Minor coastal flooding impacts are possible but not expected for parts of the English coast on Friday and Saturday.

Flood Guidance Statement

10:30hrs Tuesday 03 December 2024

Flood risk matrix

Summary of potential impacts

MINIMAL

Isolated and minor flooding of low-lying land and roads
Isolated spray/wave on coastal promenades
Little or no disruption to travel, but wet road surfaces

MINOR

Localised flooding of land and roads
Flooding affecting individual properties
Disruption to travel and key sites in flood plans

SIGNIFICANT

Flooding affecting parts of communities
Possible danger to life and damage to buildings/structures
Disruption to travel and key sites in flood plans

SEVERE

Danger to life, severe disruption to travel
Widespread flooding affecting whole communities
Widespread disruption or loss of infrastructure
Large scale evacuation of properties possible

Next statement due **10:30hrs Wednesday 04 December 2024 (all times are local)**
