

Isolated minor surface water flooding impacts are probable in parts of England today (Sunday), the overall flood risk for England and Wales is LOW.

Specific Areas of Concern Map 1 - Sunday 6 July

Flood Guidance Statement

10:30hrs Sunday 06 July 2025

Assessment of flood risk

Surface water

The surface water flood risk is LOW today (Sunday).

Isolated minor surface water flooding impacts are probable in parts of the East and South East of England including London on Sunday, and possible but not expected more widely in parts of England. This is due to the potential for isolated heavy showers. See Area of Concern Map 1 for details.

Impacts could include localised flooding from urban and fast responding smaller watercourses/catchments, drains, channels and flooding from overland flow.

Rivers

The river flood risk is VERY LOW for the next five days.

Coastal/Tidal

The coastal/tidal flood risk is VERY LOW for the next five days.

Groundwater

The groundwater flood risk is VERY LOW for the next five days.

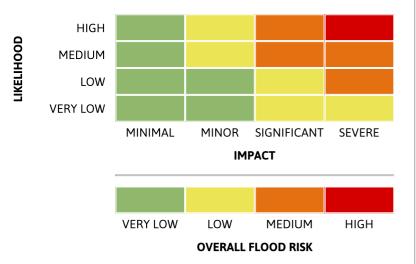

Flood Guidance Statement

10:30hrs Sunday 06 July 2025

Flood risk matrix

Summary of potential impacts

MINIMAL

Isolated and minor flooding of low-lying land and roads Isolated spray/wave on coastal promenades
Little or no disruption to travel, but wet road surfaces

MINOR

Localised flooding of land and roads Flooding affecting individual properties Disruption to travel and key sites in flood plans

SIGNIFICANT

Flooding affecting parts of communities Possible danger to life and damage to buildings/structures Disruption to travel and key sites in flood plans

SEVERE

Danger to life, severe disruption to travel Widespread flooding affecting whole communities Widespread disruption or loss of infrastructure Large scale evacuation of properties possible

Next statement due 10:30hrs Monday 07 July 2025 (all times are local)
