

Minor coastal flooding impacts are possible for parts of the East coast of England on Saturday and into Sunday. The overall flood risk for England and Wales is VERY LOW.

Specific Areas of Concern Map 1 - Saturday 25 and Sunday 26 October 2025

Flood Guidance Statement

10:30hrs Saturday 25 October 2025

Assessment of flood risk

Coastal/Tidal

The coastal/tidal flood risk is VERY LOW for the next five days.

Minor coastal flooding impacts are possible for parts of the East coast of England today (Saturday) and into Sunday. See Specific Area of Concern Map for more details.

Minor coastal flooding impacts are also possible but not expected more widely in England today (Saturday) and into Sunday due to high tides and unsettled coastal conditions including large waves and storm surge.

Rivers

The river flood risk is VERY LOW for the next five days.

Surface water

The surface water flood risk is VERY LOW for the next five days.

Groundwater

The groundwater flood risk is VERY LOW for the next five days.

Flood Guidance Statement

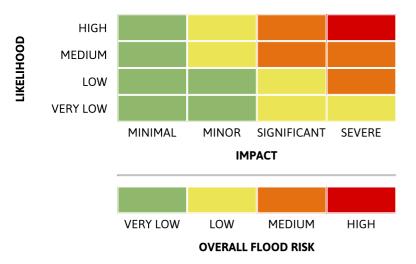

10:30hrs Saturday 25 October 2025

Flood risk matrix

Summary of potential impacts

MINIMAL

Isolated and minor flooding of low-lying land and roads Isolated spray/wave on coastal promenades
Little or no disruption to travel, but wet road surfaces

MINOR

Localised flooding of land and roads Flooding affecting individual properties Disruption to travel and key sites in flood plans

SIGNIFICANT

Flooding affecting parts of communities
Possible danger to life and damage to buildings/structures
Disruption to travel and key sites in flood plans

SEVERE

Danger to life, severe disruption to travel Widespread flooding affecting whole communities Widespread disruption or loss of infrastructure Large scale evacuation of properties possible

Next statement due 10:30hrs Sunday 26 October 2025 (all times are local)
