## Specific Areas of Concern Map 3 - Saturday 13 and Sunday 14 December 2025

RISK AREA **E**  
Impact **MINOR**  
Likelihood **LOW**

Source River Surface  
Likely duration 2 Days

Further prolonged and at times heavy rain  
may lead to inland flooding

## Assessment of flood risk

### Rivers

The river flood risk is **LOW** for the next five days.

Minor river flooding impacts are expected in Tenby for the next five days, from the River Ritec. Minor river flooding impacts may continue on slower responding rivers today (Wednesday) until Friday.

Further minor river flooding impacts are possible across parts of England and Wales, and possible but not expected more widely, on Saturday and Sunday.

See Areas of Concern Maps for details.

### Surface water

The surface water flood risk is **VERY LOW** for the next five days.

Minor surface water flooding impacts are possible across parts of England and Wales, and possible but not expected more widely, on Saturday and Sunday.

Minor surface water flooding impacts are possible but not expected across parts of England and Wales overnight Thursday into Friday.

See Areas of Concern Map for more details.

Impacts could include localised flooding from urban and fast responding smaller watercourses/catchments, drains, channels and flooding from overland flow.

### Coastal/Tidal

The coastal/tidal flood risk is **VERY LOW** for the next five days.

### Groundwater

The groundwater flood risk is **VERY LOW** for the next five days.

## 6-10 day forecast

Continuing to be unsettled through this period with the potential for significant inland flooding.

### Flood risk matrix

### Summary of potential impacts

- MINIMAL**  
Isolated and minor flooding of low-lying land and roads  
Isolated spray/wave on coastal promenades  
Little or no disruption to travel, but wet road surfaces
- MINOR**  
Localised flooding of land and roads  
Flooding affecting individual properties  
Disruption to travel and key sites in flood plans
- SIGNIFICANT**  
Flooding affecting parts of communities  
Possible danger to life and damage to buildings/structures  
Disruption to travel and key sites in flood plans
- SEVERE**  
Danger to life, severe disruption to travel  
Widespread flooding affecting whole communities  
Widespread disruption or loss of infrastructure  
Large scale evacuation of properties possible

Next statement due **10:30hrs Thursday 11 December 2025 (all times are local)**
