## Assessment of flood risk

### Surface water

The surface water flood risk is LOW on Wednesday and Thursday.

Significant surface water flooding impacts are possible but not expected in parts of South Wales and the South West of England on Thursday. Minor impacts are expected more widely across South Wales and the South West of England on Wednesday, and probable across the South of England on Thursday.

See Areas of Concern Maps for more details.

Impacts could include localised flooding from urban and fast responding smaller watercourses/catchments, drains, channels and flooding from overland flow.

### Rivers

The river flood risk is LOW on Wednesday and Thursday.

Significant river flooding impacts are possible but not expected in parts of South Wales and South West of England on Thursday with minor impacts possible more widely across England and Wales from today (Tuesday) through until Friday.

See Areas of Concern Maps for details.

### Groundwater

The groundwater flood risk is VERY LOW for the next five days.

Minor groundwater flooding impacts are possible across parts of the North of England from Thursday onwards.

See Area of Concern Map for details.

### Coastal/Tidal

The coastal/tidal flood risk is VERY LOW for the next five days.
