Flood Guidance Statement

10:30hrs Monday 26 October 2026

FLOOD FORECASTING CENTRE

A working partnership between Environment Agency | Met Office

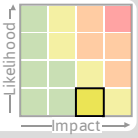

Monday	Tuesday	Wednesday	Thursday	Friday
26 Oct 2026 10:30-23:59	27 Oct 2026	28 Oct 2026	29 Oct 2026	30 Oct 2026
Trend since last FGS				
Decreased ↓	Decreased ↓	Increased ↑	Steady →	Steady →

Significant coastal flooding impacts are possible but not expected for parts of Wales today (Monday) and Tuesday, with moderate coastal impacts probable or possible more widely in England until Wednesday. The overall flood risk is LOW.

Specific Areas of Concern Map 1 - Monday 26 and Tuesday 27 October 2026

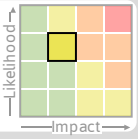

RISK AREA **A**
Impact **SIGNIFICANT**
Likelihood **LOW**

Source Coastal/Tidal
Likely duration 2 Days

Significant coastal impacts during high tide late Mon and Tues morning

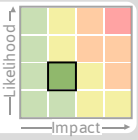

RISK AREA **B**
Impact **MODERATE**
Likelihood **HIGH**

Source Coastal/Tidal
Likely duration 2 Days

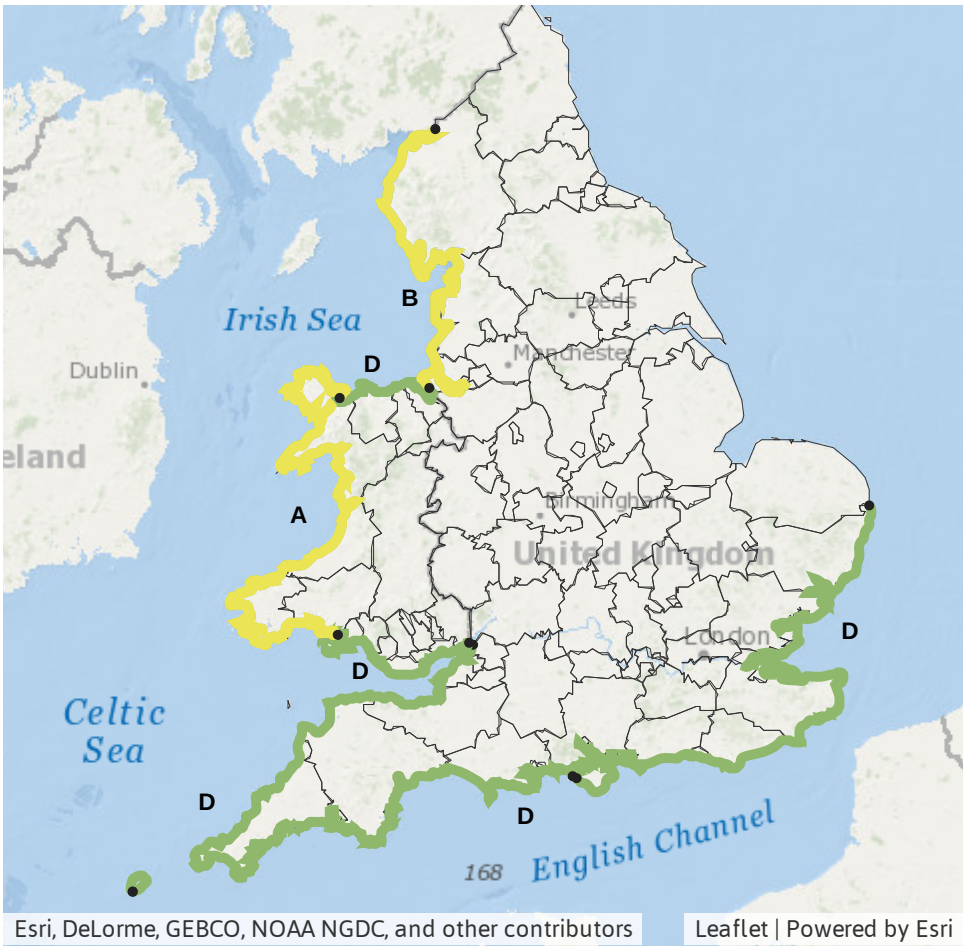

Coastal impacts probable around high tide late Mon and through Tues morning

RISK AREA **D**
Impact **MODERATE**
Likelihood **MEDIUM**

Source Coastal/Tidal
Likely duration 2 Days

Coastal flooding impacts possible around times of high water

FLOOD FORECASTING CENTRE

A working partnership between Environment Agency | Met Office

Specific Areas of Concern Map 2 - Wednesday 28 October 2026

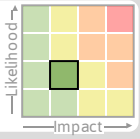

RISK AREA **C**
Impact **MODERATE**
Likelihood **HIGH**

Source Coastal/Tidal
Likely duration 1 Day

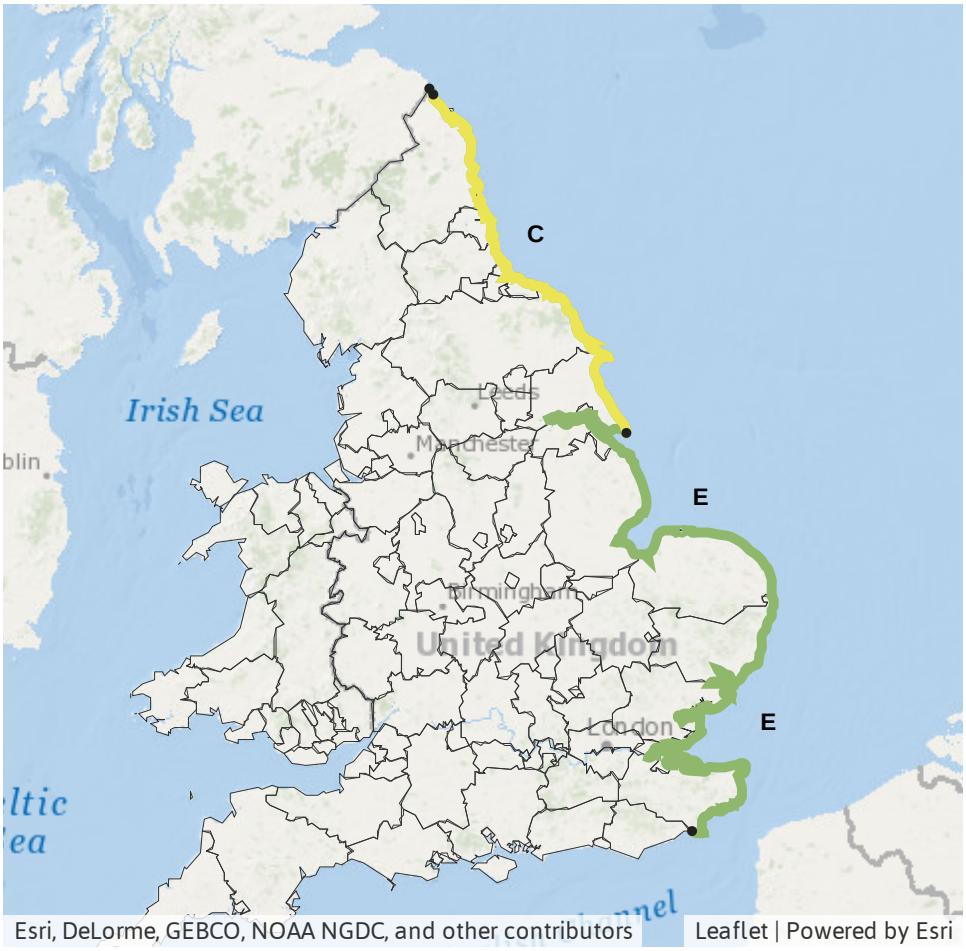

Large surge and high spring tides leading to probable moderate impacts

RISK AREA **E**
Impact **MODERATE**
Likelihood **MEDIUM**

Source Coastal/Tidal
Likely duration 1 Day

Coastal flooding impacts are possible around high tide on Wednesday morning

Assessment of flood risk

Coastal/Tidal

The coastal/tidal flood risk is LOW for today (Monday) and Tuesday.

Significant coastal/tidal flooding impacts are possible but not expected at times during today and Tuesday for parts of the west and south-west of Wales. Moderate coastal/tidal flooding impacts are probable for parts of the north-west of England, and possible more widely along English and Welsh coasts today and Tuesday.

This is due to high spring tides, large waves and a large storm surge. See Specific Areas of Concern Maps for details.

Moderate coastal/tidal flooding impacts are also probable for parts of the north-east of England, and possible more widely along eastern and south-east coasts of England on Wednesday. See Specific Areas of Concern Maps for details.

Rivers

The river flood risk is VERY LOW for the next five days.

Moderate river flooding impacts are possible but not expected across parts of the north-west of England and parts of Wales through today and Tuesday morning. This is due to continuing impacts from heavy rain.

Surface water

The surface water flood risk is VERY LOW for the next five days.

Groundwater

The groundwater flood risk is VERY LOW for the next five days.

Flood Guidance Statement

10:30hrs Monday 26 October 2026

FLOOD FORECASTING CENTRE

A working partnership between Environment Agency | Met Office

Flood risk matrix

Summary of potential impacts

MINOR
Isolated and minor flooding of low-lying land and roads
Isolated spray/wave on coastal promenades
Little or no disruption to travel, but wet road surfaces

MODERATE
Localised flooding of land and roads
Flooding affecting individual properties
Disruption to travel and key sites in flood plans

SIGNIFICANT
Flooding affecting parts of communities
Possible danger to life and damage to buildings/structures
Disruption to travel and key sites in flood plans

EXTREME
Danger to life, extreme disruption to travel
Widespread flooding affecting whole communities
Widespread disruption or loss of infrastructure
Large scale evacuation of properties possible

Next statement due **10:30hrs Tuesday 27 October 2026 (all times are local)**
